LAW ENFORCEMENT & ARMED FORCES

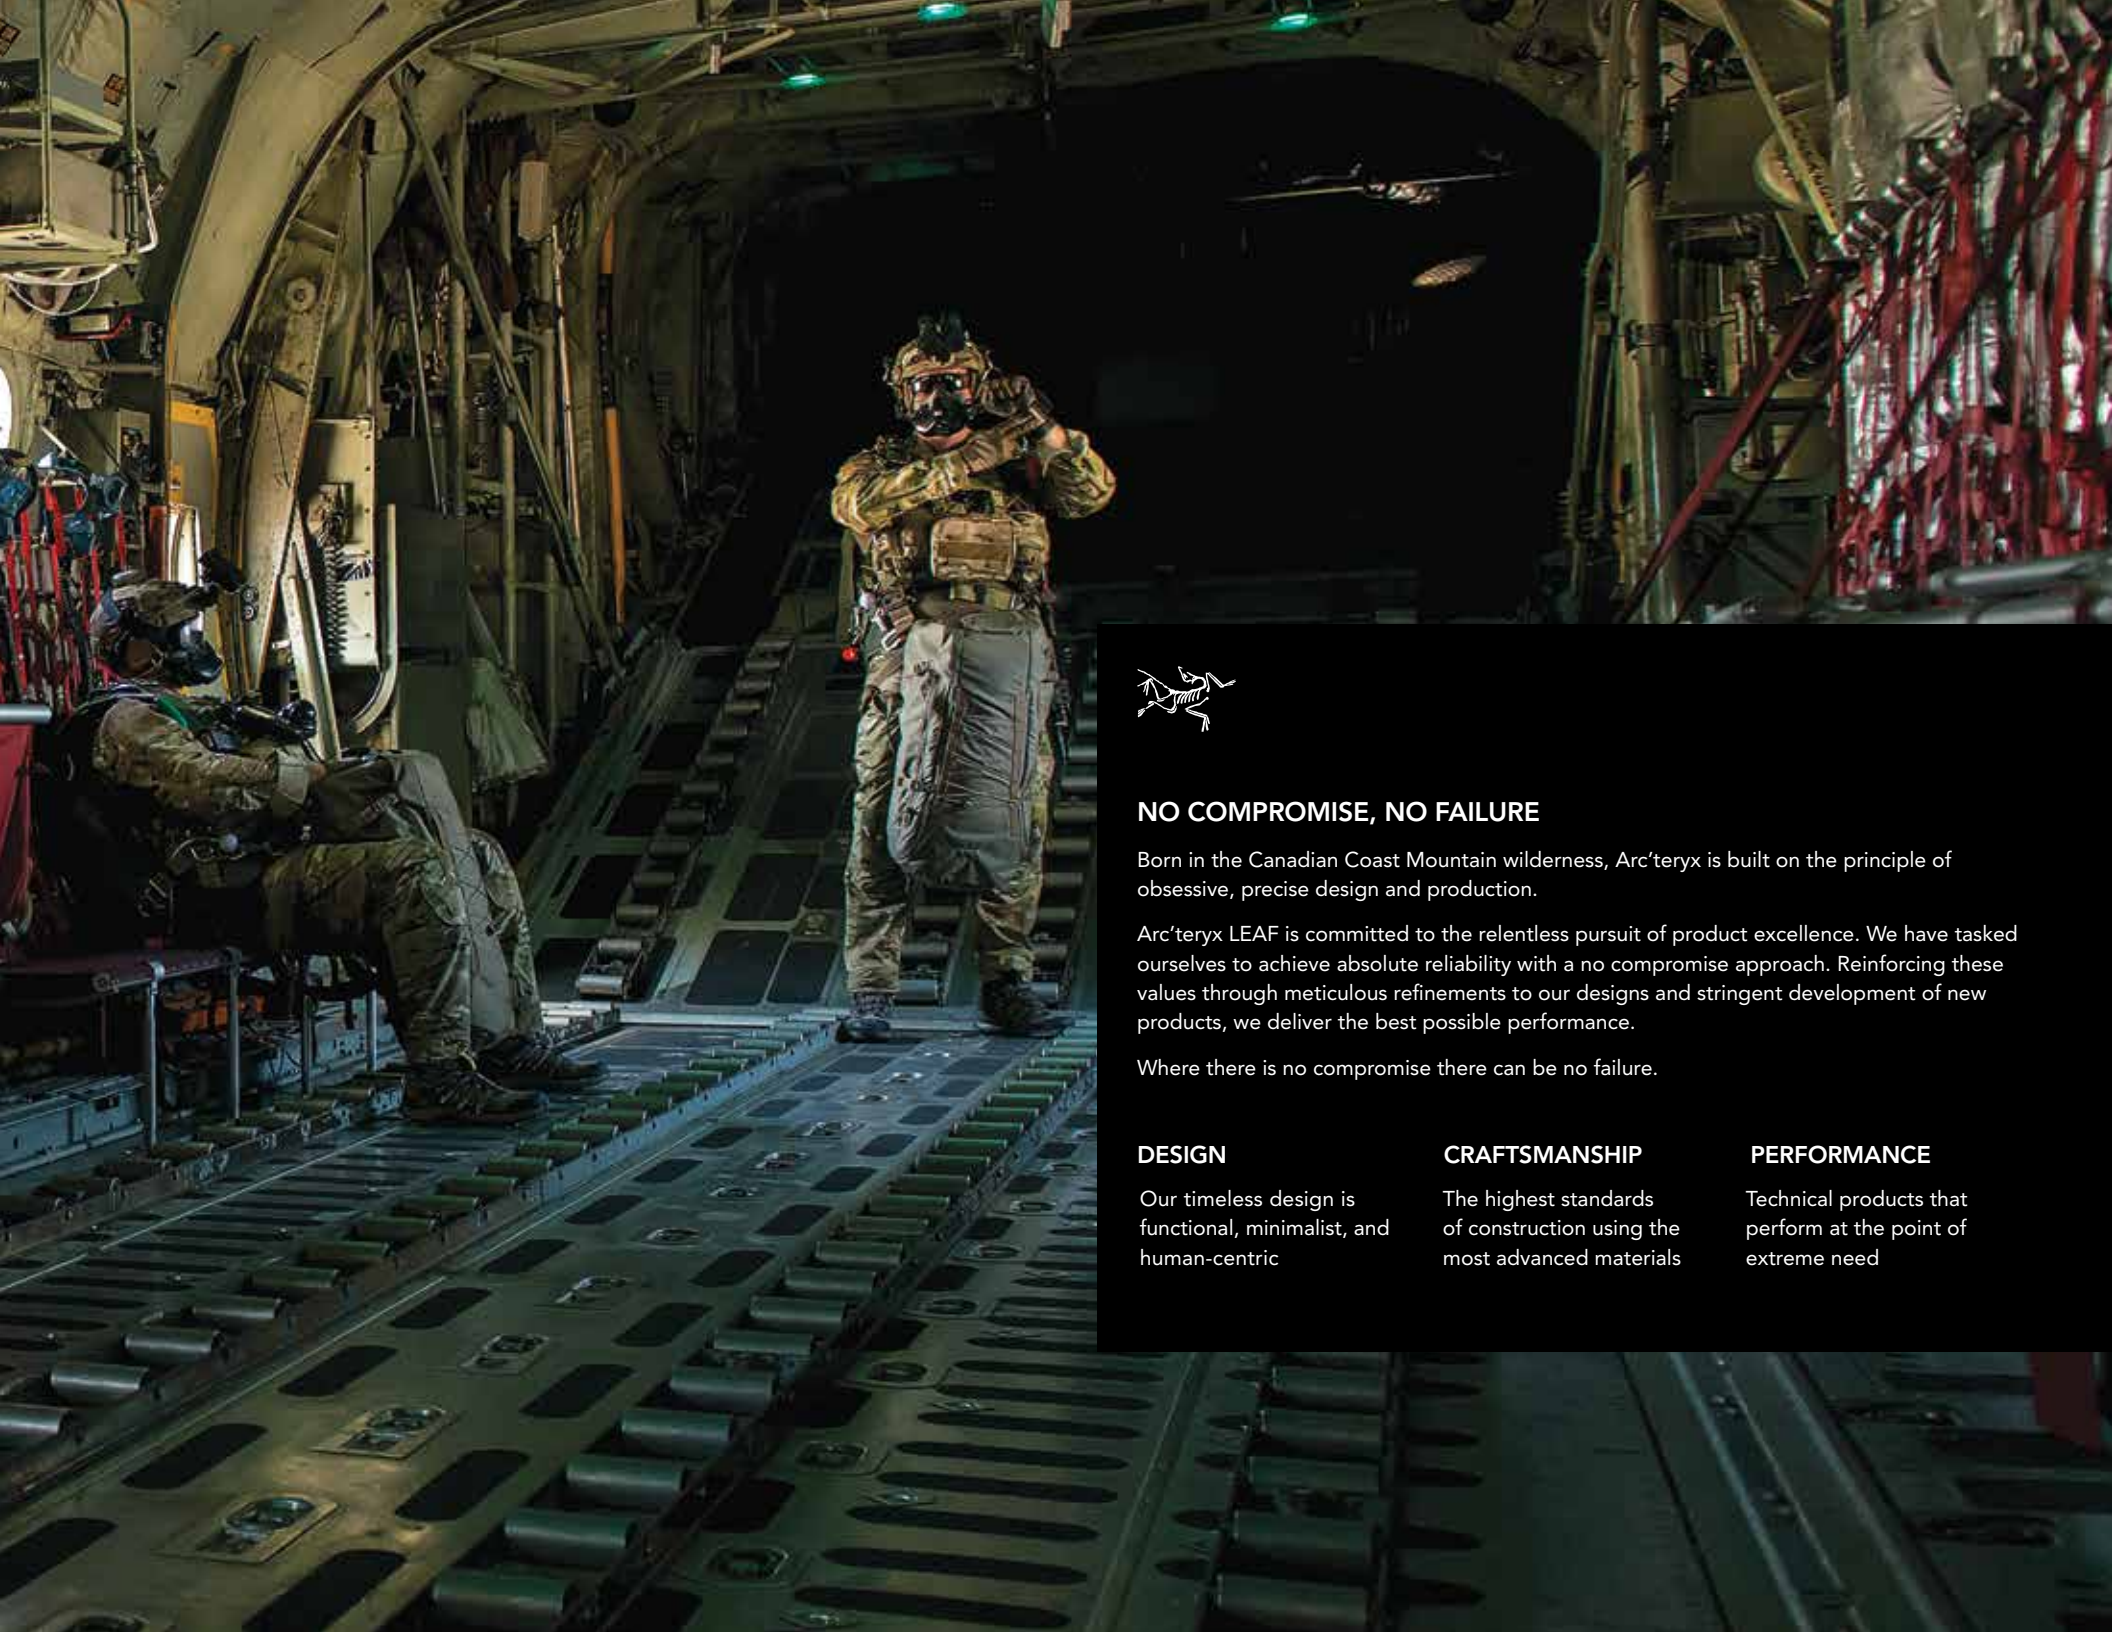

PRODUCT CATALOGUE 2015

LEAF

## NO COMPROMISE, NO FAILURE

Born in the Canadian Coast Mountain wilderness, Arc'teryx is built on the principle of obsessive, precise design and production.

Arc'teryx LEAF is committed to the relentless pursuit of product excellence. We have tasked ourselves to achieve absolute reliability with a no compromise approach. Reinforcing these values through meticulous refinements to our designs and stringent development of new products, we deliver the best possible performance.

Where there is no compromise there can be no failure.

### DESIGN

Our timeless design is functional, minimalist, and human-centric

### CRAFTSMANSHIP

The highest standards of construction using the most advanced materials

### PERFORMANCE

Technical products that perform at the point of extreme need

ENHANCED COMBAT UNIFORM

INTUITIVE. DEPENDABLE  
NOTORIOUSLY FUNCTIONAL  
PERFORMANCE BEYOND EXPECTATIONS

## REINFORCE MOBILITY

### *Focus On The Task At Hand And Not The Equipment*

To provide operationally functional systems that cover the range of military and law enforcement activities, LEAF presents the Assault Shirt and Pant, and Recce Shirt. We applied our technical expertise to create functional designs that are the hardest wearing, most streamlined and purposeful comprehensive combat uniforms.

Assault designs are technical, fully featured pieces suitable for a variety of combat applications. Recce Shirt is a field shirt built to carry either mission essentials or fighting order comfortably over long distances, with the versatility of a dress uniform.

Emphasizing movement and function, the new designs focus on safety with premium Cordura® no melt/no drip textiles. Continuously reliable performance—with no compromise on mobility, no failure in construction.

Two secure upper arm pockets with daisy chain hard points, plus Velcro® I.D. patches with retention ring

Clever pocket design and configuration on shirts and pants allows for maximum load-outs

Low profile hybrid collar design with button and Velcro® closure can be worn open or closed to seal closely against neck

Articulated knee gives extreme range of motion without bulk, plus fit removable soft knee pads and/or LEAF knee caps

## ASSAULT SHIRT AR

Model 16469 | XS, S, M, L, XL, XXL | 465g / 16.4oz (L)

### DESIGN

Full featured, articulated no melt/no drip combat shirt with hybrid collar compatible with body armour. Fit allows for base layer and works as part of a layering system. Clean efficient design and meticulous craftsmanship ensure long term performance.

### FEATURES

- Low profile hybrid collar with button and Velcro® closure shields neck or can be worn open
- Mesh vents underarms allow air flow under personal protective equipment
- Removable, articulated, soft elbow pads fit into integrated pockets
- Cuff button closures allow for rolled up sleeves in warm conditions
- Two secure upper arm pockets with daisy chain hard points
- 4x4.5 Velcro® identification patches with V-LITE™ retention ring

### MATERIALS

- No melt/no drip woven 60% cotton/40% nylon Cordura® (body)
- No melt/no drip knit 50% cotton/50% nylon Cordura® (shoulders and sleeves)
- TenCate Defender™ M 5.5 oz. mesh (under arm)
- EV®50 10mm foam (elbow pads)

## ASSAULT SHIRT AR – MULTICAM®

Model 15168 | XS, S, M, L, XL, XXL | 480g / 17oz (L)

### DESIGN

Full featured, articulated no melt/no drip combat shirt with hybrid collar compatible with body armour. Fit allows for base layer and works as part of a layering system. Clean efficient design and meticulous craftsmanship ensure long term performance.

### FEATURES

- Low profile hybrid collar with button and Velcro® closure shields neck or can be worn open
- Mesh vents underarms allow air flow under personal protective equipment
- Removable, articulated, soft elbow pads fit into integrated pockets
- Cuff button closures allow for rolled up sleeves in warm conditions
- Two secure upper arm pockets with daisy chain hard points
- 4x4.5 Velcro® identification patches with V-LITE™ retention ring

### MATERIALS

- No melt/no drip woven 60% cotton/40% nylon Cordura® (body)
- No melt/no drip knit 50% cotton/50% nylon Cordura® (shoulders and sleeves)
- TenCate Defender™ M 5.5 oz. mesh (under arm)
- EV®50 10mm foam (elbow pads)

## ASSAULT PANT AR

Model 15187 | XS, S, M, MS, MT, L, LS, LT, XL, XXL | 760g / 26.8oz (L)

### DESIGN

Full featured no melt/no drip technical pant suitable for a variety of combat applications. Spacious fit allows for seasonal layering. Articulation in the knees and seat provide unrestricted motion. Reinforcements over high stress areas offer protection and long term durability and performance.

### FEATURES

- Adjustable waist adds sizing flexibility of 2.5"/6cm
- Belt loops fit H-150 Rigger's Belt or E-220 Rigger's Harness
- Internal knee cap sleeve fit removable soft knee pads or LEAF knee caps
- Two hand pockets with internal knife pocket; two seat pockets; two thigh dump cargo pockets with daisy chain hard points
- Velcro® ankle cuff closure seals over boots

### MATERIALS

- No melt/no drip knit 50% cotton/50% nylon Cordura®
- EV®50 10mm foam (knee pads)
- MilSpec 3" Cordura® webbing (over knee)

## ASSAULT PANT AR – MULTICAM®

Model 14613 | XS, S, M, MS, MT, L, LS, LT, XL, XXL | 785g / 27.7oz (L)

### DESIGN

Full featured no melt/no drip technical pant suitable for a variety of combat applications. Spacious fit allows for seasonal layering. Articulation in the knees and seat provide unrestricted motion. Reinforcements over high stress areas offer protection and long term durability and performance.

### FEATURES

- Adjustable waist adds sizing flexibility of 2.5"/6cm
- Belt loops fit H-150 Rigger's Belt or E-220 Rigger's Harness
- Internal knee cap sleeve fit removable soft knee pads or LEAF knee caps
- Two hand pockets with internal knife pocket; two seat pockets; two thigh dump cargo pockets with daisy chain hard points
- Velcro® ankle cuff closure seals over boots

## RECCE SHIRT AR

Model 15186 | XS, S, M, L, XL, XXL | 670g / 23.7oz (L)

### DESIGN

No melt/no drip patrol shirt built to carry mission essentials or fighting order comfortably over long distances. Spacious fit accommodates for layering according to environmental temperature underneath. Dress style provides uniform versatility.

### FEATURES

- Low profile hybrid collar with button and Velcro® closure shields neck or can be worn open
- Mesh vents underarms allow air flow
- Covered centerline buttons offer a no fail closure with equipment compatibility
- Removable, articulated, soft elbow pads fit into integrated pockets
- Cuff button closures allow for rolled up sleeves in warm conditions
- Two internal mesh stash pockets; two external chest Velcro® pockets; two external chest drop in pockets with daisy chain hard points (fits smartphone)
- Two secure upper arm pockets with daisy chain hard points
- 4x4.5 Velcro® identification patches with V-LITE™ retention ring

### MATERIALS

- No melt/no drip knit 50% cotton/50% nylon Cordura®
- TenCate Defender™ M 5.5 oz. mesh (under arm)

## RHO LTW ZIP NECK

Model 12727 | S, M, L, XL, XXL | 350g / 12.4oz (L)

### DESIGN

Wool naturally adjusts its thermal properties in response to changing humidity levels. What this means is that because wool generates heat as it becomes damp yet remains warm when wet, in cold temperatures the body retains warmth during exertion, whereas in hot temperatures, the dampness spreads across the wool and cools the body. Rho LTW layers provide a close-fitting garment that maintains its shape and aids in transferring moisture away from the body. Merino wool is naturally odor resistant, even with prolonged wear.

### FEATURES

- Wool is warm in cold climates and cools the body in hot environments
- Lightweight, naturally odor resistant
- Flatlocked seams add comfort and reduce chafing
- Laminated chest pocket with zipper
- Ergonomic fits are motion-friendly and keep the fabric close to skin
- Gusseted underarms allow unrestricted movement
- Quarter-zip allows enhanced ventilation

### MATERIALS

- MAPP® Merino wool

## RHO LTW BOTTOM

Model 13368 | S, M, L, XL, XXL | 260g / 9.2oz (L)

## RHO TOP

Model 11300 | S, M, L, XL, XXL | 275g / 9.7oz (L)

### DESIGN

Rho cold weather base layers fit next-to-skin, delivering warmth plus moisture management. The heavier weight fabric is breathable to keep the body dry during exertion and provides plush warmth during periods of rest.

### FEATURES

- Lightweight, thermal fabric with good breathability
- Flatlocked seams add comfort and reduce chafing
- Ergonomic fits are motion-friendly and keep the fabric close to skin
- Gusseted underarms provide a stationary hem that does not lift with overhead motion
- Quarter-zip allows enhanced ventilation
- Laminated chest pocket with zipper

## NAGA HOODY [GEN 2]

Model 15487 | S, M, L, XL, XXL | 395g / 14oz (L)

### DESIGN

Warm technical thermal mid layer functional for everyday use. More generous fit increases comfort with a design facilitating full range of motion. Communications compatible larger chest pocket is repositioned for ease of use. Refitted hood improves comfort while strategically placed seams reduce friction points.

### FEATURES

- Low profile hood sits cleanly against neck; separate collar provides protection
- Left chest pocket with secure zipper closure has media port
- Quarter-zip allows enhanced ventilation

### MATERIALS

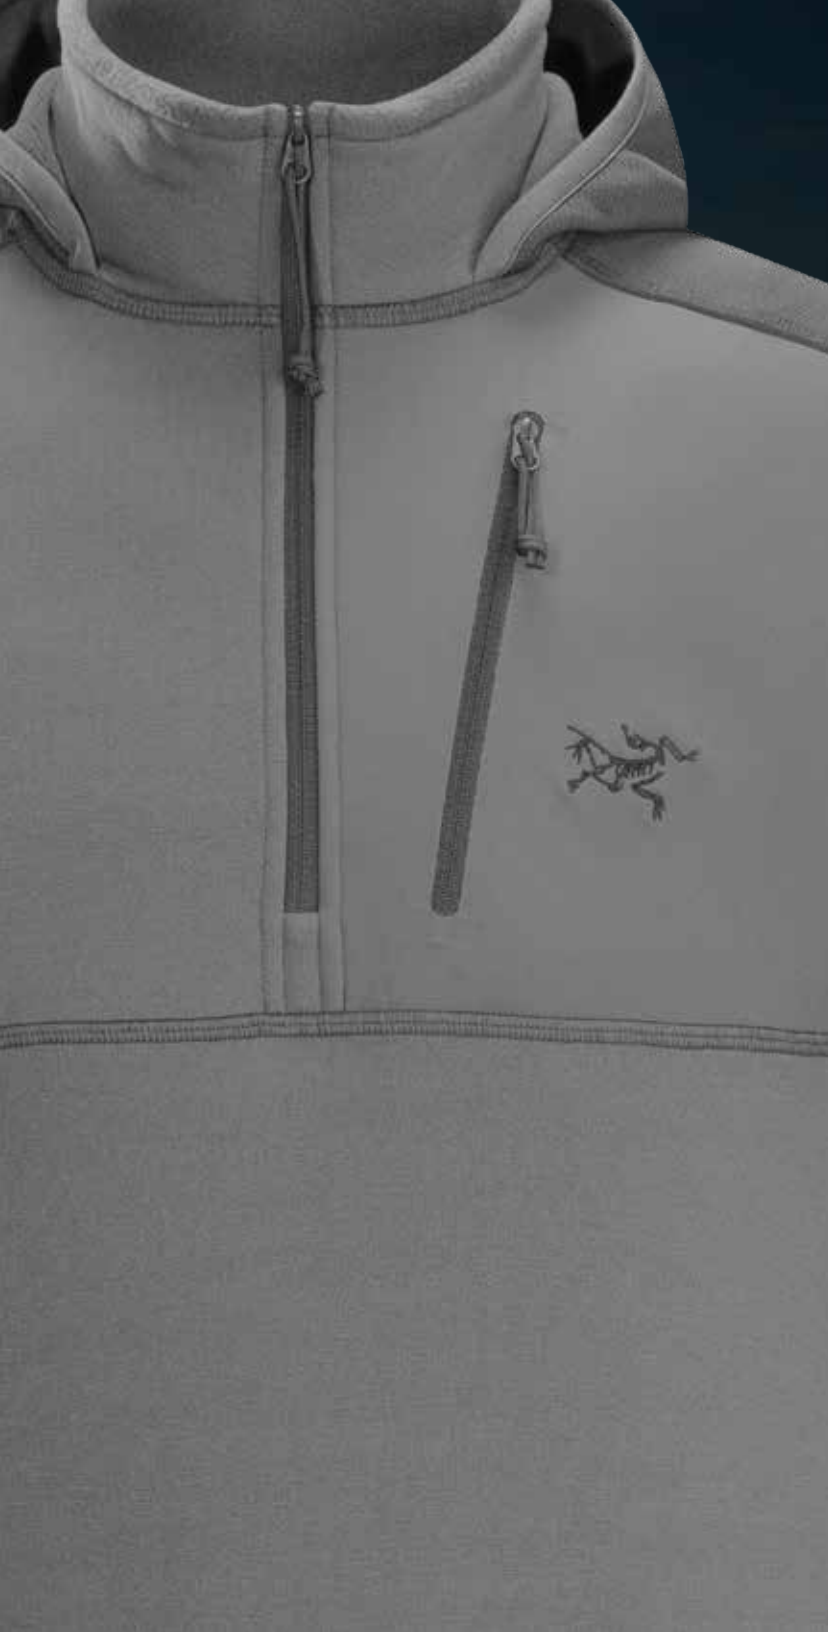

- Polartec® Power Stretch® nylon jersey
- Polartec® Power Stretch® with Hardface® technology

NAGA HOODY  
GEN [2]

REFINED FIT  
HARD WEARING  
FUNCTIONAL PERFORMANCE

## EVERYDAY FUNCTION

### *Indispensable For All Tasks And All Environments*

From inception, the Naga Hoody proved itself as an indispensable midlayer. Low profile, thermal comfort that is functional as an outer layer as well, the new Naga Hoody has a more generous fit and a full range of unrestricted motion. Communications compatibility increases its operational function, but retains an understated appearance.

Everyday use indicates reliable high performance and comfort. An integral part of a layering system, the new Naga Hoody is an essential element of every day.

Anatomic patterning creates a relaxed, streamlined fit providing all-day comfort, maximum mobility and easy layering

Re-engineered low profile hood sits cleanly against the neck. Separate collar gives increased protection and comfort

Positioned high for fast access, the chest pocket is hand-held communications device-compatible complete with media port

Sleeve-end thumb loops add performance and mobility by preventing bunching, plus keep insulation in place over wrist area

## ATOM LT JACKET

Model 14282 | XS, S, M, L, XL, XXL | 410g / 14.5oz (L)

### DESIGN

Exceptionally lightweight insulated mid layer that retains core warmth by blocking wind and trapping warm air next to the body, the Atom LT can also function as a wind resistant outer layer. Media ports inside the hand pockets allow for internal routing of communication cables. When worn under personal protection equipment, comfortable side panels of breathable, stretch fabric prevent overheating and provide ease of movement.

### FEATURES

- Coreloft™ insulation has a very high warmth-to-weight ratio and resists compacting
- Polartec® Power Stretch® with Hardface® technology side panels are highly breathable, have excellent stretch mobility
- Vertically routed hem drawcord minimizes interference with duty belt
- Articulation in the shoulders and elbows provides room for a full range of unrestricted motion
- Two large hand pockets with media ports to allow for internal routing of communications cables; one internal chest pocket

### MATERIALS

- Gossamera™
- Polartec® Power Stretch® with Hardface® technology (side panels)
- Coreloft™ (60g/m<sup>2</sup>)

## ATOM LT HOODY

Model 14063 | XS, S, M, L, XL, XXL | 445g / 15.7oz (L)

### DESIGN

Exceptionally lightweight insulated mid layer that retains core warmth by blocking wind and trapping warm air next to the body, the Atom LT can also function as a wind resistant outer layer. Insulated hood adjusts to securely fit the head and face; follows side-to-side motion without obscuring peripheral vision. Media ports inside the hand pockets allow for internal routing of communication cables. When worn under personal protection equipment, comfortable side panels of breathable, stretch fabric prevent overheating and provide ease of movement.

### FEATURES

- Coreloft™ insulation has a very high warmth-to-weight ratio and resists compacting
- Polartec® Power Stretch® with Hardface® technology side panels are highly breathable, have excellent stretch mobility
- Insulated hood has a single pull adjuster; tightens beneath the ears to move with the head from side to side, not restricting vision; can be stowed using elastic hanger loop
- Articulation in the shoulders and elbows provides room for a full range of unrestricted motion
- Two large hand pockets with media ports to allow for internal routing of communications cables; one internal chest pocket
- Vertically routed hem drawcord minimizes interference with duty belt

### MATERIALS

- Gossamera™
- Polartec® Power Stretch® with Hardface® technology (side panels)

## ATOM LT PANT

Model 10864 | XS, S, M, L, XL, XXL | 355g / 12.5oz (L)

**Coreloft**

### DESIGN

Arc'teryx-developed Coreloft™ insulation has a very high warmth-to-weight ratio, meaning it delivers great warmth for very little weight and low profile volume. The resilient structure of the insulation resists compacting, so it can be repeatedly stored and returned to full loft. The outer fabric on the Atom LT Pant is weather-resistant, enabling it to function as an outer layer. Full side zips provide ventilation as desired and open pant legs wide when dressing over equipment.

### FEATURES

- Lightweight, resilient Coreloft™ synthetic insulation is compact and warm
- Outer fabric sheds moisture and blocks wind
- Full side zipper opening adjusts ventilation, opens wide over equipment
- Articulation in the seat and knees provides room for layers to move freely
- Elastic waist

### MATERIALS

- Luminara™
- Coreloft™ (60g/m<sup>2</sup>)

## SOFTSHELL

Softshells are made from fabrics with a high degree of stretch and a tightly woven smooth outer surface that sheds weather. The air permeable nature of these garments makes them excellent choices for high exertion in cold, dry weather, or as mobile outerwear in cool, mixed conditions. Softshells come in different degrees of warmth.

Crocodile

## COMBAT JACKET

Model 11757 | S, M, L, XL, XXL | 535g / 18.9oz (L)

### DESIGN

What sets the Combat Jacket apart from other softshells is the lightweight fabric. Tweave® Durastretch® has remarkable resilience, making it hard wearing in the most abrasive and difficult environments. Non-insulated, this combat shirt alternative is our lightest weight softshell that dries quickly and breathes well during exertion. A solid choice for mixed weather conditions and environments.

### FEATURES

- Tweave® Durastretch® stretch woven fabric has mobility, breathes during exertion, dries quickly and is highly durable
- Articulation in the shoulders and elbows provide freedom of motion
- Pit zippers ventilate heat
- Die cut Velcro® cuff tabs won't catch or tear off
- Two large hand pockets
- Two zippered sleeve pockets
- 4x4 Velcro® identification patches

## COMBAT PANT [GEN2]

Model 13330 | XS, S, M, MS, MT, L, LS, LT, XL, XXL | 610g / 21.4oz (L)

### DESIGN

Hard wearing, versatile combat pant that performs across a broad range of weather conditions. Stretch woven fabrics have excellent stretch mobility, breathability and are quick to dry, making them appropriate for long range wear; Tweave® Durastretch® also sheds moisture, contaminants and is inherently resistant to abrasion. Suitable for professional use in mountain terrain, or as a versatile utility pant, the Combat Pant is compatible with our H150 Rigger's Belt or E220 Rigger's Harness.

### FEATURES

- Articulation in the seat and knees allows for dynamic motion and room for layers; gusseted crotch
- Ten pockets: generous hand pockets with utility knife pocket; security stash pockets; thigh dump pockets with flap that folds in to reduce interference; zippered seat pockets
- All pockets work with harness and equipment
- Pockets bags are half mesh to save weight, keep them clean and aid breathability
- Bungee leg hem adjusts for open or closed cuff
- Belt loops fit H-150 Rigger's Belt or E-220 Rigger's Harness

## DRAC JACKET

Model 10696 | S, M, L, XL, XXL | 655g / 23.1oz (L)

### DESIGN

Best suited to cooler climates, the Drac Jacket is warm and weather resistant without being insulated. Burly™ Double Weave fabric provides high performance stretch mobility and temperature regulation that is snag-resistant and durable. Visually tactical, the versatile design has a larger waist with room for warm additional layers.

### FEATURES

- Burly™ Double Weave stretch woven fabric has moderate warmth, mobility, breathes during exertion, dries quickly and is highly durable
- Articulation in the shoulders and elbows allows for dynamic motion and provides room for layers underneath to move freely
- Pit zippers rapidly ventilate heat
- Two large hand pockets; zippered sleeve pockets
- Die cut Velcro® cuff tabs won't catch or tear off
- 4x4 Velcro® identification patches

### MATERIALS

- Burly™ Double Weave

## DRAC PANT

Model 10713 | S, M, L, XL, XXL | 830g / 29.3oz (L)

### DESIGN

Combat-ready, in a weather-shedding Burly™ Double Weave stretch textile, the Drac Pant provides high performance mobility and temperature regulation during active situations, with a moderate degree of warmth. Articulation in the knees and seat makes for an easy, full range of motion. Webbing reinforced knees outlast fabric alternatives. The ten pocket design holds all equipment and has suspender loops to distribute weight evenly.

### FEATURES

- Burly™ Double Weave stretch woven fabric has moderate warmth, excellent mobility, breathes during exertion, dries quickly and is highly durable
- Articulation in the seat and knees provides room for layers to move freely
- Internal knee cap sleeve fit LEAF knee caps
- Suspender loops distribute weight evenly and fit Rigger's Belt
- Built-in boot gaiter

### MATERIALS

- Burly™ Double Weave
- MilSpec 3" Cordura® webbing (over knee)

## MINOTAUR JACKET

Model 11901 | S, M, L, XL, XXL | 645g / 22.8oz (L)

### DESIGN

The Minotaur Jacket is mid weight, fully windproof shell. Lightly insulated by a grid fleece backer, WINDSTOPPER® fabric makes this the warmest, most weather protective LEAF softshell. The breathable membrane readily sheds all forms of moisture and breathes under exertion, controlling moisture and regulating body temperature. Stretch content provides full mobility and comfort. A full front zipper and large hand pockets add versatility.

### FEATURES

- Lightly insulated WINDSTOPPER® fully blocks wind; four-way stretch increases comfort
- Articulation in the shoulders and elbows allows for dynamic motion and provides room for layers underneath to move freely
- Pit zippers rapidly ventilate heat
- Hand pockets, two internal zippered stow pockets and bicep pockets
- 4x4 Velcro® identification patches

### MATERIALS

- N72s WINDSTOPPER® high loft

## BRAVO JACKET

Model 10365 | S, M, L, XL, XXL | 775g / 27.4oz (L)

### DESIGN

The heaviest weight softshell in the LEAF line, the Bravo Jacket provides the warmth and weather protection required while on patrol. Best suited to cool or cold temperatures, the air permeable fabric releases heat to maintain a comfortable body temperature. Stretch content means the jacket is not restrictive. Bomber length and athletic cut keep it simple; clean arm panel allows for custom embroidery.

### FEATURES

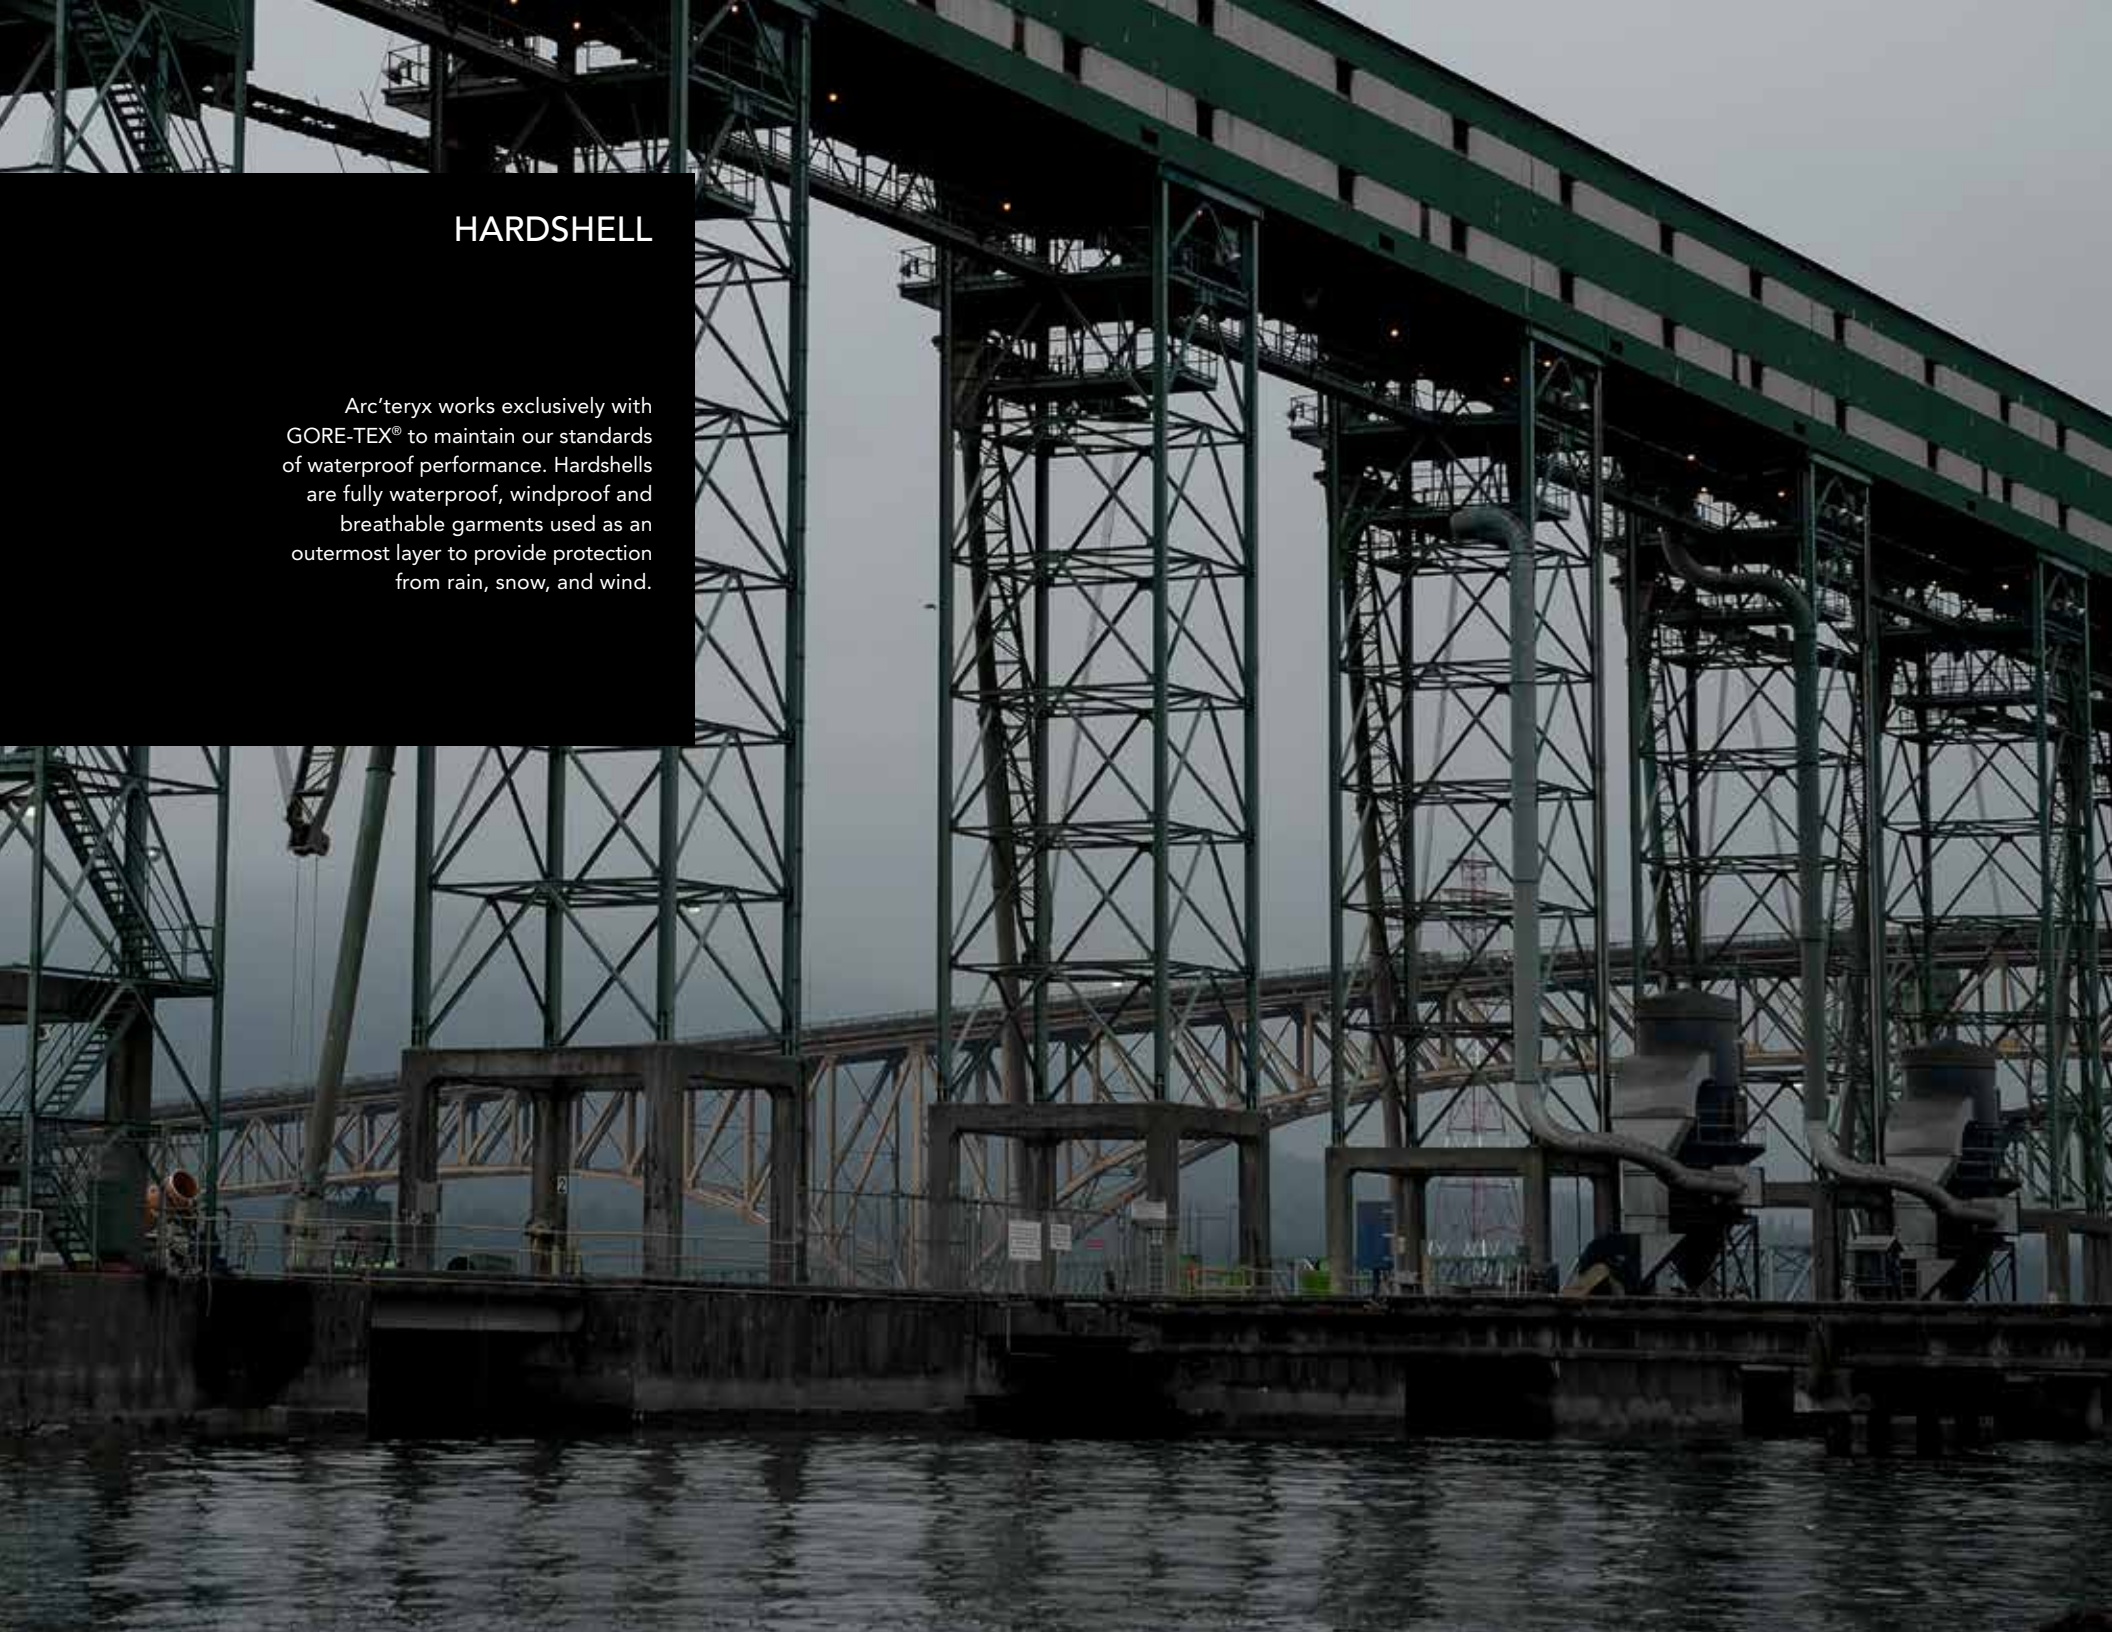

- Articulation in the shoulders and elbows keeps hem stationary during full arm and overhead motions and provides room for layers underneath to move freely
- Bomber length works with harness
- Stretch woven fabric has mobility, adds warmth and is highly durable
- Two large hand pockets
- Die cut Velcro® cuff tabs

### MATERIALS

- Fortius 3.0™

## HARDSHELL

## ALPHA JACKET [GEN 2]

Model 13317 | XS, S, M, L, XL, XXL | 595g / 21oz (L)

### DESIGN

Full protection shell jacket that provides shelter from storms, rain, snow and can withstand the challenges of everyday use. Revised technical construction of the Alpha Jacket has produced a lighter jacket that uses less tape and stitching, which in turn increases overall breathability. MN70p-X GORE-TEX® 3L fabric is the hardest wearing windproof, waterproof/breathable protection available. The length of the jacket covers all mid layers; dropped back hem protects the lower back.

### FEATURES

- MN70p-X GORE-TEX® 3L fabric is exceptionally durable, fully waterproof and windproof, and breathable
- StowHood™ makes use of more compact N40p-X GORE-TEX® 3L fabric to fit neatly inside the collar without bulk
- #5 WaterTight™ Vislon front zipper with back flap
- WaterTight™ pit zippers vent heat rapidly
- Two internal stretch pockets, two bicep pockets, two large volume chest pockets; media ports allow for internal routing of communications cables
- Internal, vertically routed hem drawcord minimizes interference with duty belt
- 4x4 Velcro® identification patches

### MATERIALS

## ALPHA PANT [GEN 2]

Model 13321 | XS, S, M, MS, MT, L, LS, LT, XL, XXL | 505g / 17.8oz (L)

### DESIGN

The Alpha Pant is a full protection hardshell pant that provides shelter from storms, rain, snow and can withstand the challenges of everyday use. MN70p-X GORE-TEX® 3L fabric provides the hardest wearing windproof, waterproof/breathable protection available. Articulated to enhance movement, the pants have room for layers to move smoothly over each other and do not bind when bending, nor lift at the hem. Positioning of the side zippers and pockets works with a harness.

### FEATURES

- MN70p-X GORE-TEX® 3L fabric is exceptionally durable, fully waterproof and windproof, and highly breathable
- Hip length, two-way #5 WaterTight™ side zippers are positioned for easy access; WaterTight™ fly zipper; adjustable webbing belt
- 1" webbing waist belt has a low profile T-lock buckle
- Articulation in the seat and knees provides unrestricted movement
- Instep reinforced with durable, abrasion resistant Keprtec®

## ALPHA BIB PANT [GEN 2]

Model 13323 | XS, S, M, MS, MT, L, LS, LT, XL, XXL | 600g / 21.2oz (L)

### DESIGN

The Alpha Bib is an all weather shell bib pant that provides shelter from storms, rain, snow and withstands the challenges of everyday use. MN70p-X GORE-TEX® 3L fabric provides the hardest wearing windproof, waterproof/breathable protection available. Articulated to enhance movement, the pants have room for layers to move smoothly over each other and do not bind when bending, nor lift at the hem. Breathable back panel prevents core overheating during exertion and also improves overall mobility.

### FEATURES

- MN70p-X GORE-TEX® 3L fabric is exceptionally durable, fully waterproof and windproof, and highly breathable
- Tweave® Durastretch® back panel breathes during exertion and is highly durable
- Hip length, two-way #5 WaterTight™ side zippers are positioned for easy access; WaterTight™ fly zipper
- 1" webbing belt
- Articulation in the seat and knees provides unrestricted movement
- Large volume thigh cargo pockets are situated to work with a harness and have horizontal dump pocket openings with WaterTight™ zipper closure
- Instep reinforced with durable, abrasion resistant Keprotec®

## ALPHA BIB PANT [GEN 2] – MULTICAM®

Model 13324 | XS, S, M, MS, MT, L, LS, LT, XL, XXL | 580g / 20.5oz (L)

### DESIGN

The Alpha Bib is an all weather shell bib pant that provides shelter from storms, rain, snow and withstands the challenges of everyday use. MN40r-X GORE-TEX® 3L MultiCam® fabric is the hardest wearing windproof, waterproof/breathable protection available. Articulated to enhance movement, the pants have room for layers to move smoothly over each other and do not bind when bending, nor lift at the hem. Breathable back panel prevents core overheating during exertion and also improves overall mobility.

### FEATURES

- MN40r-X GORE-TEX® 3L MultiCam® fabric is exceptionally durable, fully waterproof and windproof, and highly breathable
- Tweave® Durastretch® back panel breathes during exertion and is highly durable
- Hip length, two-way #5 WaterTight™ side zippers are positioned for easy access; WaterTight™ fly zipper
- 1" webbing belt
- Articulation in the seat and knees provides unrestricted movement
- Large volume thigh cargo pockets are situated to work with a harness and have horizontal dump pocket openings with WaterTight™ zipper closure
- Instep reinforced with durable, abrasion resistant Keprotec®

## ALPHA LT JACKET [GEN 2]

Model 13885 | XS, S, M, L, XL, XXL | 410g / 14.5oz (L)

### DESIGN

Lightweight and packable waterproof, windproof/breathable jacket that is comfortable to wear during fast travel under inclement conditions. N40p-X GORE-TEX® 3L fabric responds rapidly with a greatly enhanced rate of breathability to transfer moisture vapour away from the body and regulate temperature. Media ports, matte zippers and compatibility with insertion and extraction equipment add to the jacket's operational function.

### FEATURES

- N40p-X GORE-TEX® 3L fabric is fully waterproof and windproof, and highly breathable, engineered to maintain comfort during frequent work/rest cycles
- Articulation in the shoulders and elbows provides room for a full range of unrestricted motion
- #5 Vislon WaterTight™ centre zipper with back flap is tough and easy to operate
- WaterTight™ pit zippers vent heat rapidly
- StormHood™ blocks drafts, protects neck, fits over helmet; can be stowed using elastic hanger loop
- Two chest pockets work with load carriage equipment and have media ports to allow for internal routing of communications cables; internal chest pocket
- HemLock™ removable foam inserts keep the jacket hem from riding up under a harness and hipbelt

### MATERIALS

- N40p-X GORE-TEX® 3L

## ALPHA LT PANT [GEN 2]

Model 16851 | XS, S, M, MS, MT, L, LS, LT, XL, XXL | 360g / 12.7oz (L)

### DESIGN

Lightweight and packable waterproof, windproof/breathable pant that is comfortable to wear during fast travel under inclement conditions. N40p-X GORE-TEX® 3L fabric responds rapidly with a greatly enhanced rate of breathability to transfer moisture vapour away from the body and regulate temperature. Zipper closures are easy to operate while wearing gloves or mitts; articulation provides mobility; hem width accommodates boots.

### FEATURES

- N40p-X GORE-TEX® 3L fabric is fully waterproof and windproof, and highly breathable, engineered to maintain comfort during frequent work/rest cycles
- Streamlined reinforced instep minimizes volume at hem; T-lock secures zipper in place
- Articulation in the seat and knees provides room for layers to move freely
- Hip length, two-way WaterTight™ side zippers are positioned for easy access; WaterTight™ fly zipper
- Adjustable webbing belt

MultiCam®

## ALPHA LT JACKET [GEN 2] – MULTICAM®

Model 16880 | XS, S, M, L, XL, XXL | 425g / 15oz (L)

### DESIGN

Lightweight and packable weather protective jacket for use when adverse weather and environmental conditions can be expected. MN30p-X GORE-TEX® 3L MultiCam® is fully waterproof, windproof and breathable, but also light enough to remain comfortable during fast travel and exertion. Media ports, matte zippers and compatibility with insertion and extraction equipment add to the jacket's operational function.

### FEATURES

- MN30p-X GORE-TEX® 3L MultiCam® fabric is highly breathable to regulate moisture and temperature
- Articulation in the shoulders and elbows provides room for a full range of unrestricted motion and allows layers underneath to move freely
- #5 Vislon WaterTight™ centre zipper with back flap is tough and easy to operate in cold temperatures or with gloves; WaterTight™ pit zippers vent heat rapidly
- StormHood™ blocks drafts, protects neck, fits over helmet; can be stowed using elastic hanger loop
- Two chest pockets work with load carriage equipment and have media ports to allow for internal routing of communications cables; internal chest pocket
- HemLock™ removable foam insert keeps the jacket hem from riding up under a harness and hipbelt
- Vertically routed hem drawcord eliminates interference with duty belt
- 4x4 Velcro® identification patches

## ALPHA LT PANT [GEN 2] – MULTICAM®

Model 16852 | XS, S, M, MS, MT, L, LS, LT, XL, XXL | 355g / 12.5oz (L)

### DESIGN

Lightweight, packable and hard wearing weather protective pants. When adverse weather and environmental conditions can be expected, MN30p-X GORE-TEX® 3L MultiCam® is fully windproof and waterproof but also supple, quiet and light enough to remain comfortable during fast travel or intense exertion. Zipper closures are easy to operate while wearing gloves or mitts; articulation provides mobility; hem width accommodates boots.

### FEATURES

- MN30p-X GORE-TEX® 3L MultiCam® fabric is fully waterproof and windproof, and highly breathable to regulate moisture and temperature during exertion
- Articulation in the seat and knees provides room for layers to move freely
- Hip length, two-way WaterTight™ side zippers are positioned for easy access; WaterTight™ fly zipper

## WINDSHELL

Windshells are quiet, featherweight emergency shells that facilitate rapid coverage over kit in inclement weather, creating a protected microclimate.

MultiCam®

## WRAITH JACKET

Model 11903 | S, M, L, XL, XXL | 180g / 6.4oz (L)

### DESIGN

Quiet, featherweight mini-ripstop nylon emergency shell. Wind-resistant, moisture-shedding technical fabric has slight mechanical stretch to facilitate rapid coverage over kit in inclement weather. Helmet compatible StormHood™, hem drawcord and die-cut cuff adjusters instantly create a protected micro climate. Provides protection in temperature surroundings. Stows in its own chest pocket.

### FEATURES

- Gossamera™ is wind resistant with a DWR (Durable Water Repellent) finish
- Highly compressible and packable
- Articulated elbows and gusseted underarms
- Helmet compatible StormHood™ with soft hood brim and adjustable hood drawcords
- Chest stow pocket with attachment point
- Full front zip
- Laminated die-cut Velcro®
- Adjustable hem drawcord

### MATERIALS

- Gossamera™

MultiCam®

## WRAITH PANT

Model 11904 | S, M, L, XL, XXL | 150g / 5.3oz (L)

### DESIGN

Quiet, featherweight mini-ripstop nylon emergency shell pant with full length, quiet side zippers. Wind-resistant, moisture-shedding technical fabric has slight mechanical stretch to facilitate rapid coverage over kit in inclement weather. Oversized knees and leg diameter fit over boots, knee pads and combat gear. Adjustable waist and leg hems seal out weather. Provides protection in temperature surroundings. Stows inside waistband pocket.

### FEATURES

- Gossamera™ fabric is wind-resistant with a DWR (Durable Water Repellent) finish
- Highly compressible and compact
- Oversized knees and legs fit easily over boots/combat gear
- Two side zippers with non-reflective, noiseless zipper pulls
- Adjustable elastic drawcords on both waist and leg hem

### MATERIALS

- Gossamera™

## COLD WEATHER INSULATION

Insulated pieces provide the maximum amount of warmth in compact, lightweight garments. Insulation materials are carefully chosen for their high warmth-to-weight ratios and their resilience to compressing, maintaining their loft and warmth.

Crocodile

Black

## ATOM SV HOODY

Model 14071 | XS, S, M, L, XL, XXL | 570g / 20.1oz (L)

**Coreloft**

### DESIGN

A cold weather jacket with significant warmth, wind resistance and a roomy fit to wear over other layers. The Atom SV Hoody is deceptively lightweight and low profile for the warmth it brings to core body areas. Exclusive Coreloft™ synthetic insulation is a highly efficient insulation that traps and holds warm air next to the body. Insulated hood adjusts to securely fit the head and face and follows side to side motion without obscuring peripheral vision. Media ports inside the hand pockets allow for internal routing of communication cables. The Atom SV is appropriate for rotary wing aircraft or ground mobility vehicle mounted direct action tasks.

### FEATURES

- Outer fabric sheds moisture and blocks wind
- Articulation in the shoulders and elbows provides room for a full range of unrestricted motion
- Insulated hood has a single pull adjuster; not restricting vision; can be stowed using elastic hanger loop
- Two large hand pockets with media ports to allow for internal routing of communications cables; one internal chest pocket
- Vertically routed hem drawcord minimizes interference with duty belt
- Coreloft™ insulation has a very high warmth-to-weight ratio and resists compacting

### MATERIALS

- Gossamera™
- Coreloft™ (100g/m<sup>2</sup>)

## FUSION JACKET

Model 8694 | S, M, L, XL, XXL | 505g / 17.8oz (L)

### DESIGN

Fully insulated, windproof and water resistant jacket with excellent loft retention and good breathability. ThermaTek™ is an Arc'teryx exclusive insulation. The hydrophobic properties of this polyester textile make it quick drying and it retains warmth when exposed to cold/wet conditions. WINDSTOPPER® outer shell blocks wind entirely, sheds moisture and is a lightweight, easily compressible package. High collar design and stretch cuffs retain core heat. Rebounds to full warmth and loft after repeated compression.

### FEATURES

- High warmth-to-weight ratio; warm when wet
- Laminated ThermaTek™ non-quilted construction eliminates cold spots
- Compressible and packable
- Hydrophobic materials will not absorb water
- Corded noiseless zipper-pulls are easy to grab

### MATERIALS

- M70p WINDSTOPPER® 2L
- 2.7 oz ThermaTek™

Crocodile

## FUSION PANT

Model 8756 | S, M, L, XL, XXL | 610g / 21.5oz (L)

### DESIGN

Fully insulated, windproof and water repellent pant with excellent loft retention and good breathability. ThermaTek™ is an Arc'teryx exclusive insulation. The hydrophobic properties of this polyester textile make it quick drying and it retains warmth when exposed to cold/wet conditions. WINDSTOPPER® outer shell blocks wind entirely, sheds moisture and is a lightweight, easily compressible package. Full side zippers allow easy on and off over boots and gear. Rebounds to full warmth and loft after repeated compression.

### FEATURES

- High warmth-to-weight ratio; warm when wet
- Laminated ThermaTek™ non-quilted construction eliminates cold spots
- Compressible and packable
- Hydrophobic materials will not absorb water
- Corded noiseless zipper-pulls are easy to grab

### MATERIALS

PHILOSOPHY

LEAF is the Law Enforcement and Armed Forces division of Arc'teryx, an industry leader in precision equipment and apparel for harsh outdoor environments. Delivering the highest quality products is the mandate.

Like outdoor professionals, elite law enforcement and military personnel rely on systems that will not fail. Arc'teryx LEAF designs are efficient, hard wearing, purposeful and lean.

## GLOVES AND ACCESSORIES

Arc'teryx gloves use construction techniques that minimize bulk and seams, shapes that mimic the hand's natural position and precision fits to deliver exceptional dexterity and accurate touch.

Crocodile

## ASSAULT GLOVE FR

Model 14615 | XS, S, M, L, XL, XXL | 80g / 2.8oz (L)

### DESIGN

A mission essential precision tool, the Assault Glove FR has exceptional tactile dexterity and touch sensor capabilities. Flame resistant materials provide protection; reinforced finger and web construction increase durability and reliable performance. Touch sensor capability facilitates use of electronic communications equipment without removing gloves.

### FEATURES

- Leather palm and knuckle reinforcements provide long term durability
- Touch sensor capability
- Precision fit
- Utility loops for easy, secure storage
- Index finger cut-off option

### MATERIALS

- TenCate Defender™ M 10oz. interlock
- Touch Sensor Tsunami leather (palm)
- Washable goat leather (knuckle)

Rawhide

## CAM SV GLOVE

Model 8234 | XS, S, M, L, XL | 135g / 4.8oz (L)

### DESIGN

A softshell glove made of a highly breathable fabric with mechanical stretch and good weather resistance, the Cam SV is an exceptionally durable and lightweight glove. Reinforced with leather palm and fingers for additional longevity and protection, and with a short cuff for versatile application.

### FEATURES

- Windproof
- DWR finish (Durable Water Repellent) helps bead water from fabric surface
- Soft, brushed lining adds light insulation
- Softshell fabric sections in hand and cuff area for extra mobility and breathability
- Seam-free fingertips
- Anatomical shaping for fit and comfort
- Articulated patterning for unrestricted mobility
- Adjustable slim-fit cuff with Velcro® closure
- Leather reinforced palm and fingers
- Leather pull-tab with clip-in loop

### MATERIALS

- Polartec® Thermal Pro® mid loft fleece
- Burly™ Double Weave
- Lezanova leather

ASSAULT GLOVE FR

TACTILE DEXTERITY  
TOUCH SENSOR CAPABILITY  
FLAME RESISTANT TEXTILES

## PRECISION INSTRUMENTS

### *Enhanced Manual Dexterity To Better Perform Tasks And Objectives*

Exact attention to detail, the Assault Glove FR delivers the refined function of a precision instrument.

Ergonomically shaped, the Assault Glove provides a rare and exceptional level of dexterity. Flame resistant materials protect the hand, while reinforced finger and web construction increases durability and reliable performance. An integral tool for direct action tasks, the Assault Glove FR also has touch sensor capability.

When no fail demands are placed on a piece of equipment, it must be treated as a finely calibrated tool. The Assault Glove FR is clinically efficient.

Built with hard-wearing flame resistant materials, providing safe protection with long lasting durability

Leather palm and knuckle reinforcements, plus reinforced finger and web construction enhance long-term usability

Enhanced dexterity with touch sensor fingertips presents a seamless integration into all tactical actions

Arc'teryx gloves are designed with a fully anatomic, precision fit. Optional index finger cut-off elevates necessary performance

## GOTHIC GLOVE

Model 8242 | XS, S, M, L, XL | 30g / 1.1oz (L)

### DESIGN

A thin wool liner glove that fits closely, the Gothic can also be worn as an outer glove because of wool's ability to remain warm when wet. Stretch content in the fabric helps the glove retain its shape and fit.

### FEATURES

- Moisture-wicking
- Breathable
- Great warmth-to-weight ratio
- Low profile
- Quick-drying
- Minimal odour retention
- Smooth outer-face for easy layering
- Anatomical shaping for fit and comfort

### MATERIALS

- Mountain Merino wool

Black

## DELTA AR GLOVE

Model 8241 | XS, S, M, L, XL | 60g / 2.1oz (L)

### DESIGN

Made with a pill resistant hi-loft fleece shearing, these breathable gloves can be used on their own on cold dry days or as a warm insulation layer under protective shells. Articulated shaping enhances dexterity and slim-fit stretch cuffs reduce bulk under layers.

### FEATURES

- Breathable
- Lightweight
- Quick-drying
- Seam-free fingertips
- Stretch mobility
- Anatomical shaping for fit and comfort
- Articulated patterning for unrestricted mobility
- Stretch-woven cuffs
- Trim-fit cuff
- Leather pull-tab with clip-in loop

### MATERIALS

- Lezanova leather
- Hi-loft fleece shearing
- Rentex™ Stretch Knit—polyester/lycra blend

## VENTA LT GLOVE

Model 8685 | XS, S, M, L, XL, XXL | 70g / 2.5oz (L)

### DESIGN

These windproof, breathable WINDSTOPPER® gloves offer lightweight protection for a variety of tasks that require dexterity. Hi-loft backer provides warmth while wicking away moisture from the skin. A supple leather palm adds comfort and durability while the trim fit cuff reduces layering bulk.

### FEATURES

- Moisture-resistant outer face fabric
- Windproof
- Breathable
- Lightweight
- Seam-free fingertips
- Trim fit cuff
- Leather reinforced palm and thumb
- Leather pull-tab with clip-in loop

### MATERIALS

- N70p WINDSTOPPER® 3L (high-loft)
- Lezanova leather
- Rentex™ Stretch knit—polyester/lycra blend

Black

## BETA AR GLOVE

Model 13132 | S, M, L, XL | 205g / 7.3oz (L)

### DESIGN

Tri-Dex™ Technology patterns each finger of the glove separately to mimic the hand's natural position. By doing this, and using construction methods that make use of minimal seam allowances and strategic placement of the seams, gloves made with this technology have remarkable dexterity and precision touch. An outer shell of GORE-TEX® is waterproof, windproof and breathable; the inner liner provides quick drying fleece warmth.

### FEATURES

- GORE-TEX® fabric is exceptionally durable, fully waterproof and windproof, and highly breathable to regulate moisture and temperature during exertion
- Secure wrist closure with removable wrist leashes
- Seam free fingertips for comfort and touch
- Removable liner
- Short cuff with Velcro® interface that keep liner in position

## ASSAULT BALACLAVA FR

Model 14618 | S-M, M-L | 50g / 1.8oz (L)

### DESIGN

A flame resistant balaclava that is worn when conducting Direct Action tasks that will provide user protection from flame/incendiaries. An ergonomic design and flat seam construction techniques allow for enhanced comfort when worn in conjunction with a helmet, eye protection, ear protection and/or O<sup>2</sup> mask. FR mesh materials and construction techniques, allowing the balaclava to be worn in either an eyes exposed only or full face exposed manner, allows for enhanced ventilation that mitigates overheating and undue fog/moisture build-up on eye protection.

### FEATURES

- Compatible with helmets to allow for comfortable fit over sustained periods of use
- Optimal face and neck coverage
- Enhanced breathability over the mouth
- Flame resistant fabric

### MATERIALS

- TenCate Defender™ 5.5oz. mesh

## RHO LTW BEANIE

### MATERIALS

- Mapp® Merino wool

## KNEE CAP

Model 9467 | ONE SIZE | 225g / 8oz

### DESIGN

Keep the body's most important components free from harm with these kneecaps. Lightweight and anatomical, these kneecaps have a non-reflective matte buckle.

### FEATURES

- Lightweight
- Low profile
- Durable
- Two robust elastic straps
- Low profile T-locks for quick adjustability
- Articulated patterning for unrestricted mobility

### MATERIALS

- EV®50 foam
- Kydex®

## MATTOCK DRYSOCK LT

Model 11721 | XS, S, M, L, XL, XXL | 120g / 4.3oz (L)

### DESIGN

GORE-TEX® for the feet may seem unorthodox, but GORE-TEX® fabric as footwear delivers excellent moisture management and extends the functionality of a single pair of footwear. GORE-TEX® keeps moisture away from the skin, dries quickly and is extremely durable. An integrated sock and gaiter in one piece, the Drysock can be worn repeatedly inside a boot, eliminating the need for extra footwear. For extended travel over or exposure to wet terrain, the waterproof/breathable technology protects feet in the worst of conditions.

### FEATURES

- MN70p-X GORE-TEX® 3L fabric is exceptionally durable, fully waterproof and windproof, and highly breathable to regulate moisture and temperature during exertion
- Seamless footbed construction eliminates friction points
- Sock and gaiter integrated into one piece of equipment
- Adjustable Velcro® closure at calf

### MATERIALS

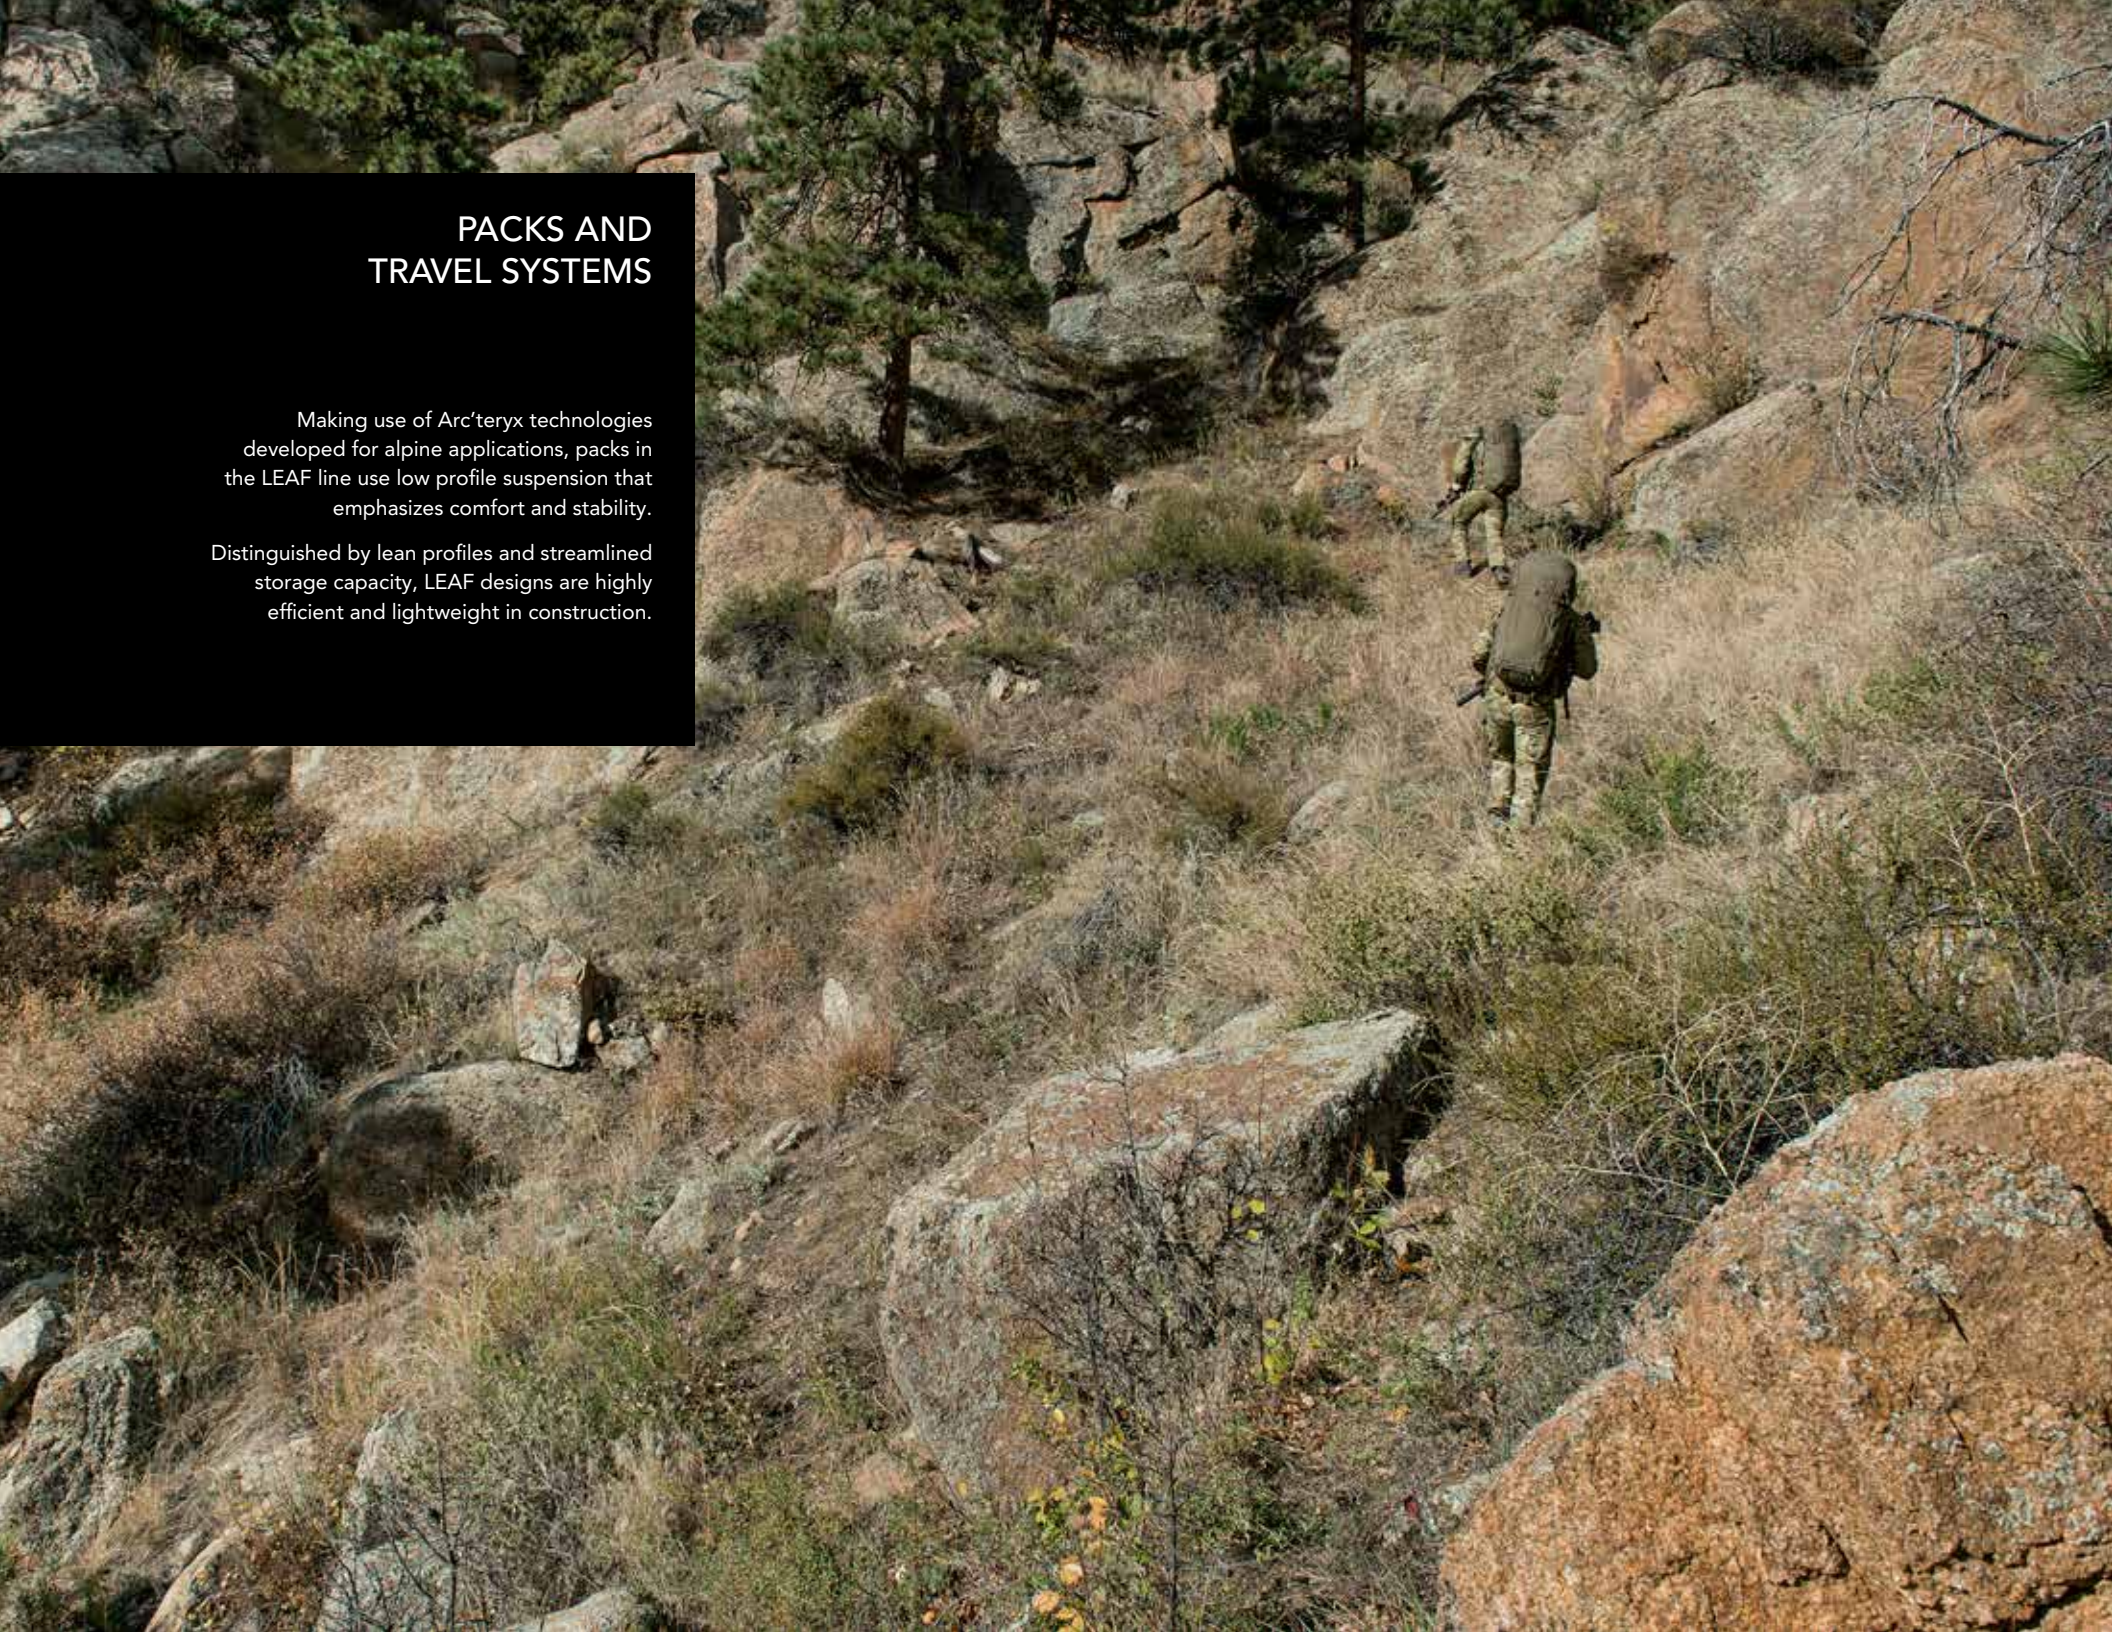

- MN70p-X GORE-TEX® 3L

## PACKS AND TRAVEL SYSTEMS

Making use of Arc'teryx technologies developed for alpine applications, packs in the LEAF line use low profile suspension that emphasizes comfort and stability.

Distinguished by lean profiles and streamlined storage capacity, LEAF designs are highly efficient and lightweight in construction.

MultiCam®

## DRYPACK 70

Model 11361 | ONE SIZE | 2500g / 88.2oz | 70L / 4270 cu. in.

### DESIGN

Waterproof load carriage equipment appropriate for maritime special operations: Over the Beach; Visit, Board, Search and Seizure; and Small Boat Operations; where adaptability of the bag to be hauled, towed, tethered or carried on water and land without compromising the contents is desired. Unique AC<sup>2</sup> (Advanced Composite Construction) is taped and sealed construction, with RF welded TIZIP master seal zipper. Full alpine backpack carrying system, completely removable, greatly aids the user's land mobility.

### FEATURES

- HT 725D Cordura is coated with urethane on both sides, making it 100% waterproof; exceptionally light and durable
- C<sup>2</sup> suspension system includes laminate back panel; GridLock™ shoulder straps that adjust to custom width and height; removable Load Transfer™ Disc that rotates freely to stabilize load on uneven terrain
- Single compartment patrol pack with RollTop™ closure and TIZIP zipper provides a waterproof seal
- Oral inflation valve controls buoyancy
- Top and bottom grab handles; removable 1m tether
- White lined interior aids in viewing contents during low light conditions

### MATERIALS

- HT 725D Cordura, PU coated
- EV®50 foam
- Tweave® Durastretch™

LOAD CARRIAGE  
EQUIPMENT

CLEVERLY SIMPLE  
INFINITELY VERSATILE  
EVER DEPENDABLE

## LESS IS MORE

### *Purpose Built Load Carriage Equipment*

Building on the heritage of the original Khard pack, the larger volume Khard 60 remains lightweight and durable, with sufficient load capacity for reconnaissance tasks with a concealed carbine carry option.

Industry partners have developed custom accessories and pouches to fit the all Velcro® lining. Limitless internal configurations make it adaptable for communication specialists, breachers, snipers and other applications.

Less is more: less visibility, less weight, less restriction. More function, more versatility and more capacity.

Quick full-length clam-shell access is capable of fully concealing a short barrel carbine.  
Khard Pack – Side Pocket

Two large volume side pockets open wide for fast entry. Hydration compartment carries either 3L bladder or elongated equipment

Internal compartment is configured with drop down extension to accommodate carbines with longer upper receivers

The stable suspension system provides molded padding on shoulder straps and waist belt for sustained long-haul comfort

Model 12337 | REG | 1800g / 63.5oz | 50L / 3050 cu. in. | MultiCam®

### DESIGN

Fast and light top loading patrol pack has streamlined cable and hose management and hydration ports to remain neat and compact. The C<sup>2</sup> composite construction suspension system drastically reduces weight to optimize weight-to-carry ratio and bears load close to the body, conserving energy. Dual density shoulder straps distribute weight over a broad, rigid surface for increased comfort. Removable aluminum stays can be custom shaped. Essential features include removable top lid with hydration ports, external compression shelf and multiple internal and external lash tabs and daisy chains for versatile compartmentalization options. Low reflective air textured Cordura® textile is weatherproof and field durable. Wide shape minimizes silhouette, adds mobility while on patrol.

### FEATURES

- Radically lightweight C<sup>2</sup> suspension system holds load close to the body, avoiding shifts and conserving energy
- Dual density shoulder straps distribute weight over broad and more rigid surface
- Exceptionally durable high tenacity nylon textile withstands hard use
- Removable, extendable lid with pocket; hydration ports at top of shoulders
- Quick release buckles on shoulder straps
- Removable support stays can be shaped for custom fitting over personal protective equipment
- External compression shelf; removable thermo-molded hip pods

### FEATURES

- Radically lightweight C<sup>2</sup> suspension system holds load close to the body, avoiding shifts and conserving energy
- Dual density shoulder straps distribute weight over broad and more rigid surface
- Exceptionally durable high tenacity nylon textile withstands hard use
- Removable, extendable lid with pocket; hydration ports at top of shoulders
- Quick release buckles on shoulder straps
- Removable support stays can be shaped for custom fitting over personal protective equipment
- External compression shelf; removable thermo-molded hip pods

### MATERIALS

- 500D nylon Cordura® 6,6 balanced weave with silicon
- 8mm composite (C<sup>2</sup>) framesheet
- SpacerMesh™
- 22mm extruded anodized aluminum stays

## COVERT CASE C/O

Model 12403 | ONE SIZE | 975g / 34.4oz | 40L / 2440 cu. in.

### DESIGN

The outcome of much thought, these simple bags are structured rectangular cubes that stand on end, fit easily into luggage compartments, have multiple carry options and are exceptionally durable. The Covert Cases use a premium fabric package treated to prevent dirt, snow and water pick-up during travel. All bags convert from shoulder bags to backpacks for easy transfer. Grab handles on all four sides.

### FEATURES

- Standard size carry-on case
- Fully padded
- Durable and streamlined design
- For overnight to three day travel
- Foam padding adds structure and protects contents
- Full U-zip opening with dual internal compression straps
- Reverse coil zipper prevents abrasion and prolongs zipper life
- Shoulder straps with discreet external storage
- Exceptionally durable high tenacity nylon textile withstands hard use
- External document pocket
- Internal document pocket
- Grab handles on all four sides

### MATERIALS

- 500D nylon Cordura® 6,6 balanced weave with silicone and PU
- EV® 50, Burly™ Double Weave

## COVERT CASE I/C/O

Model 11443 | ONE SIZE | 1145g / 40.4oz | 50L / 3050 cu. in.

### DESIGN

The outcome of much thought, these simple bags are structured rectangular cubes that stand on end, fit easily into luggage compartments, have multiple carry options and are exceptionally durable. The Covert Cases use a premium fabric package treated to prevent dirt, snow and water pick-up during travel. All bags convert from shoulder bags to backpacks for easy transfer. Grab handles on all four sides.

### FEATURES

- Fits large overhead bins to allow carry on volume
- Fully padded
- Designed for two to seven day travel
- Foam padding adds structure and protects contents
- Full U-zip opening with dual internal compression straps
- Reverse coil zipper prevents abrasion and prolongs zipper life
- Shoulder straps with discreet external storage
- Exceptionally durable high tenacity nylon textile withstands hard use
- External document pocket
- Internal document pocket
- Grab handles on all four sides

## BLADE 6 PACK

Model 16180 | ONE SIZE | 865g / 30.5oz | 6L / 366 cu. in.

### DESIGN

Compact daypack with refined, clean styling. Created to carry smaller laptops, tablets and the core essentials.

### FEATURES

- Side loading access with dual handles top and side
- Dedicated padded compartment holds and protects laptops up to 13 inches, has additional sleeve for a tablet
- Internal organizer pocket includes a secure zippered pocket and a quick-stash pocket with a cable pass through
- Thermoformed padded back panel adds comfort
- Dual density shoulder straps conform to the body and disperse heavy loads more evenly
- External stash pocket with key clip
- Discreet pocket in the back panel ideal for stashing passports and travel documents

### MATERIALS

- N630p-HT nylon 6,6 plain weave
- N210p-HT nylon 6,6 plain weave

Black

## BLADE 20 PACK

Model 16179 | ONE SIZE | 1210g / 42.7oz | 20L / 1220 cu. in.

### DESIGN

Purist styling meets the digital world in a pack created to carry the tools necessary for daily life.

### FEATURES

- Side loading access with dual handles top and side
- Dedicated padded compartment holds and protects laptops up to 15 inches, has additional sleeve for a tablet
- Internal organizer pocket includes a secure zippered pocket and a quick stash pocket with a cable pass through
- Thermoformed padded back panel adds comfort
- Dual density shoulder straps conform to the body and disperse heavy loads
- External stash pocket with key clip
- Discreet pocket in the back panel ideal for stashing passports and travel documents

### MATERIALS

- N630p-HT nylon 6,6 plain weave
- N210p-HT nylon 6,6 plain weave

Black

## BLADE 28 PACK

Model 16178 | ONE SIZE | 1450g / 51.1oz | 28L / 1708 cu. in.

### DESIGN

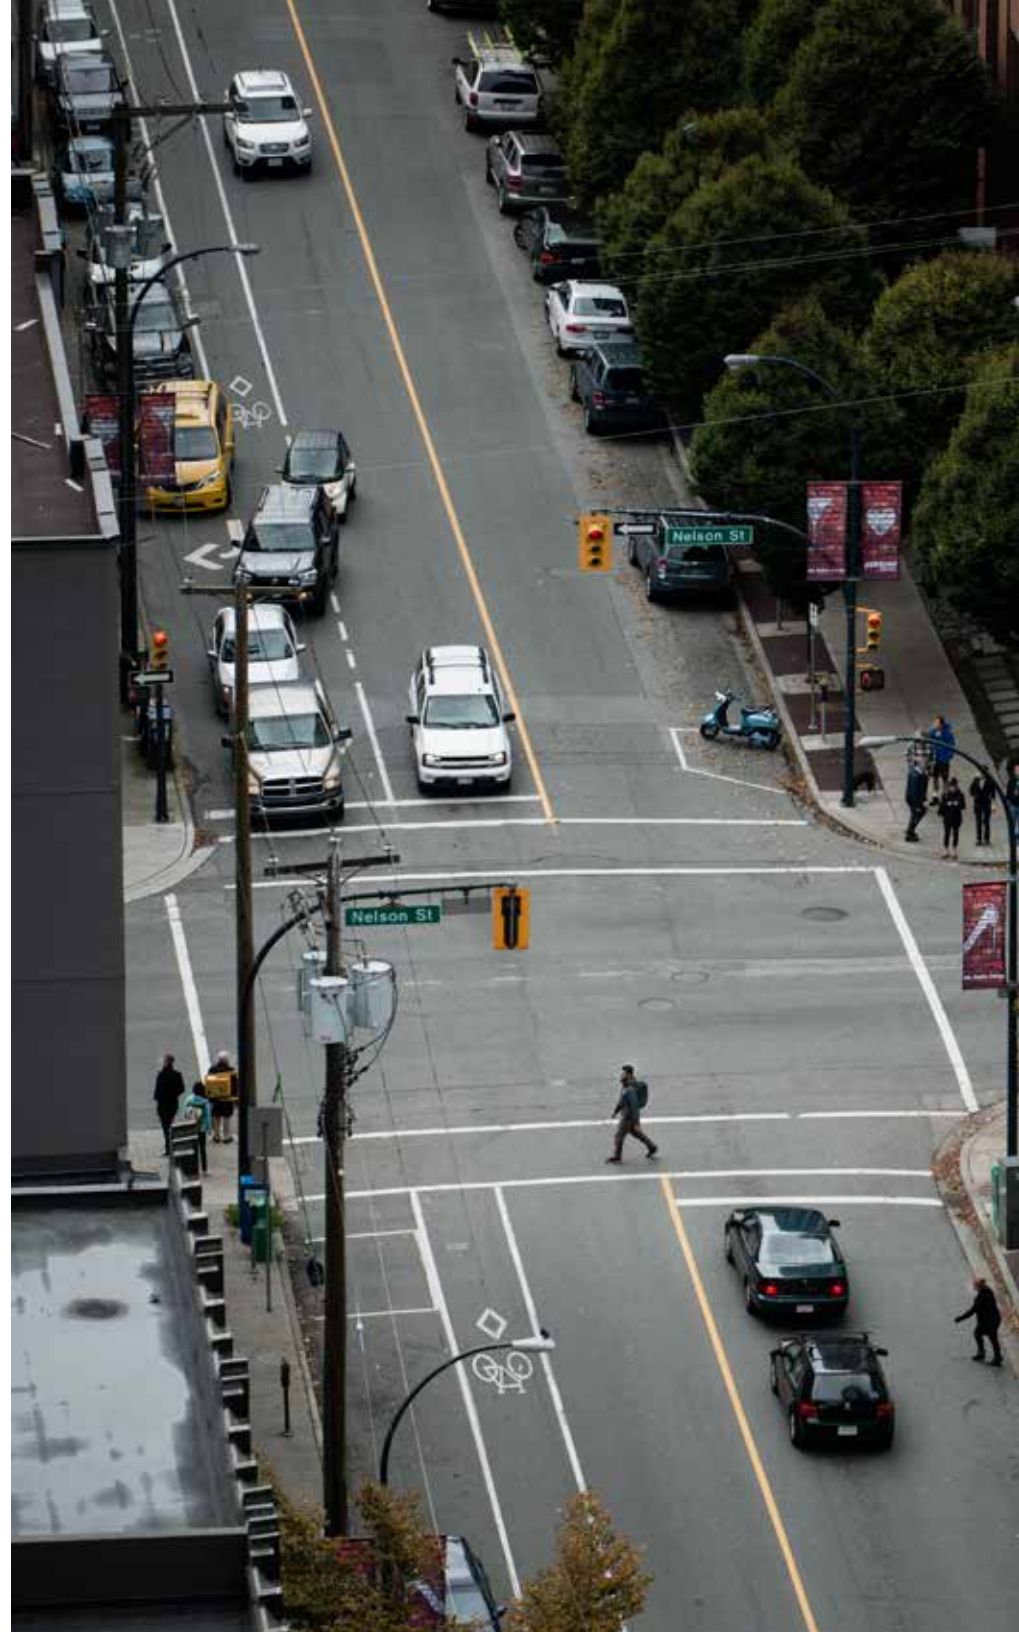

Overnight to two day travel pack. Carries and organizes laptops, tablets and digital tools, and clothing and personal items each in their own department.

### FEATURES

- Side loading access with dual handles top and side
- Dedicated padded compartment holds and protects laptops up to 15 inches, has additional sleeve for a tablet
- Carries clothing and toiletries behind a zippered panel in the main compartment
- Internal organizer pocket includes a secure zippered pocket and a quick stash pocket with a cable pass through
- Thermoformed padded back panel adds comfort
- Dual density shoulder straps conform to the body and disperse heavy loads more evenly
- External stash pocket with key clip
- Discreet pocket in the back panel ideal for stashing passports and travel documents

### MATERIALS

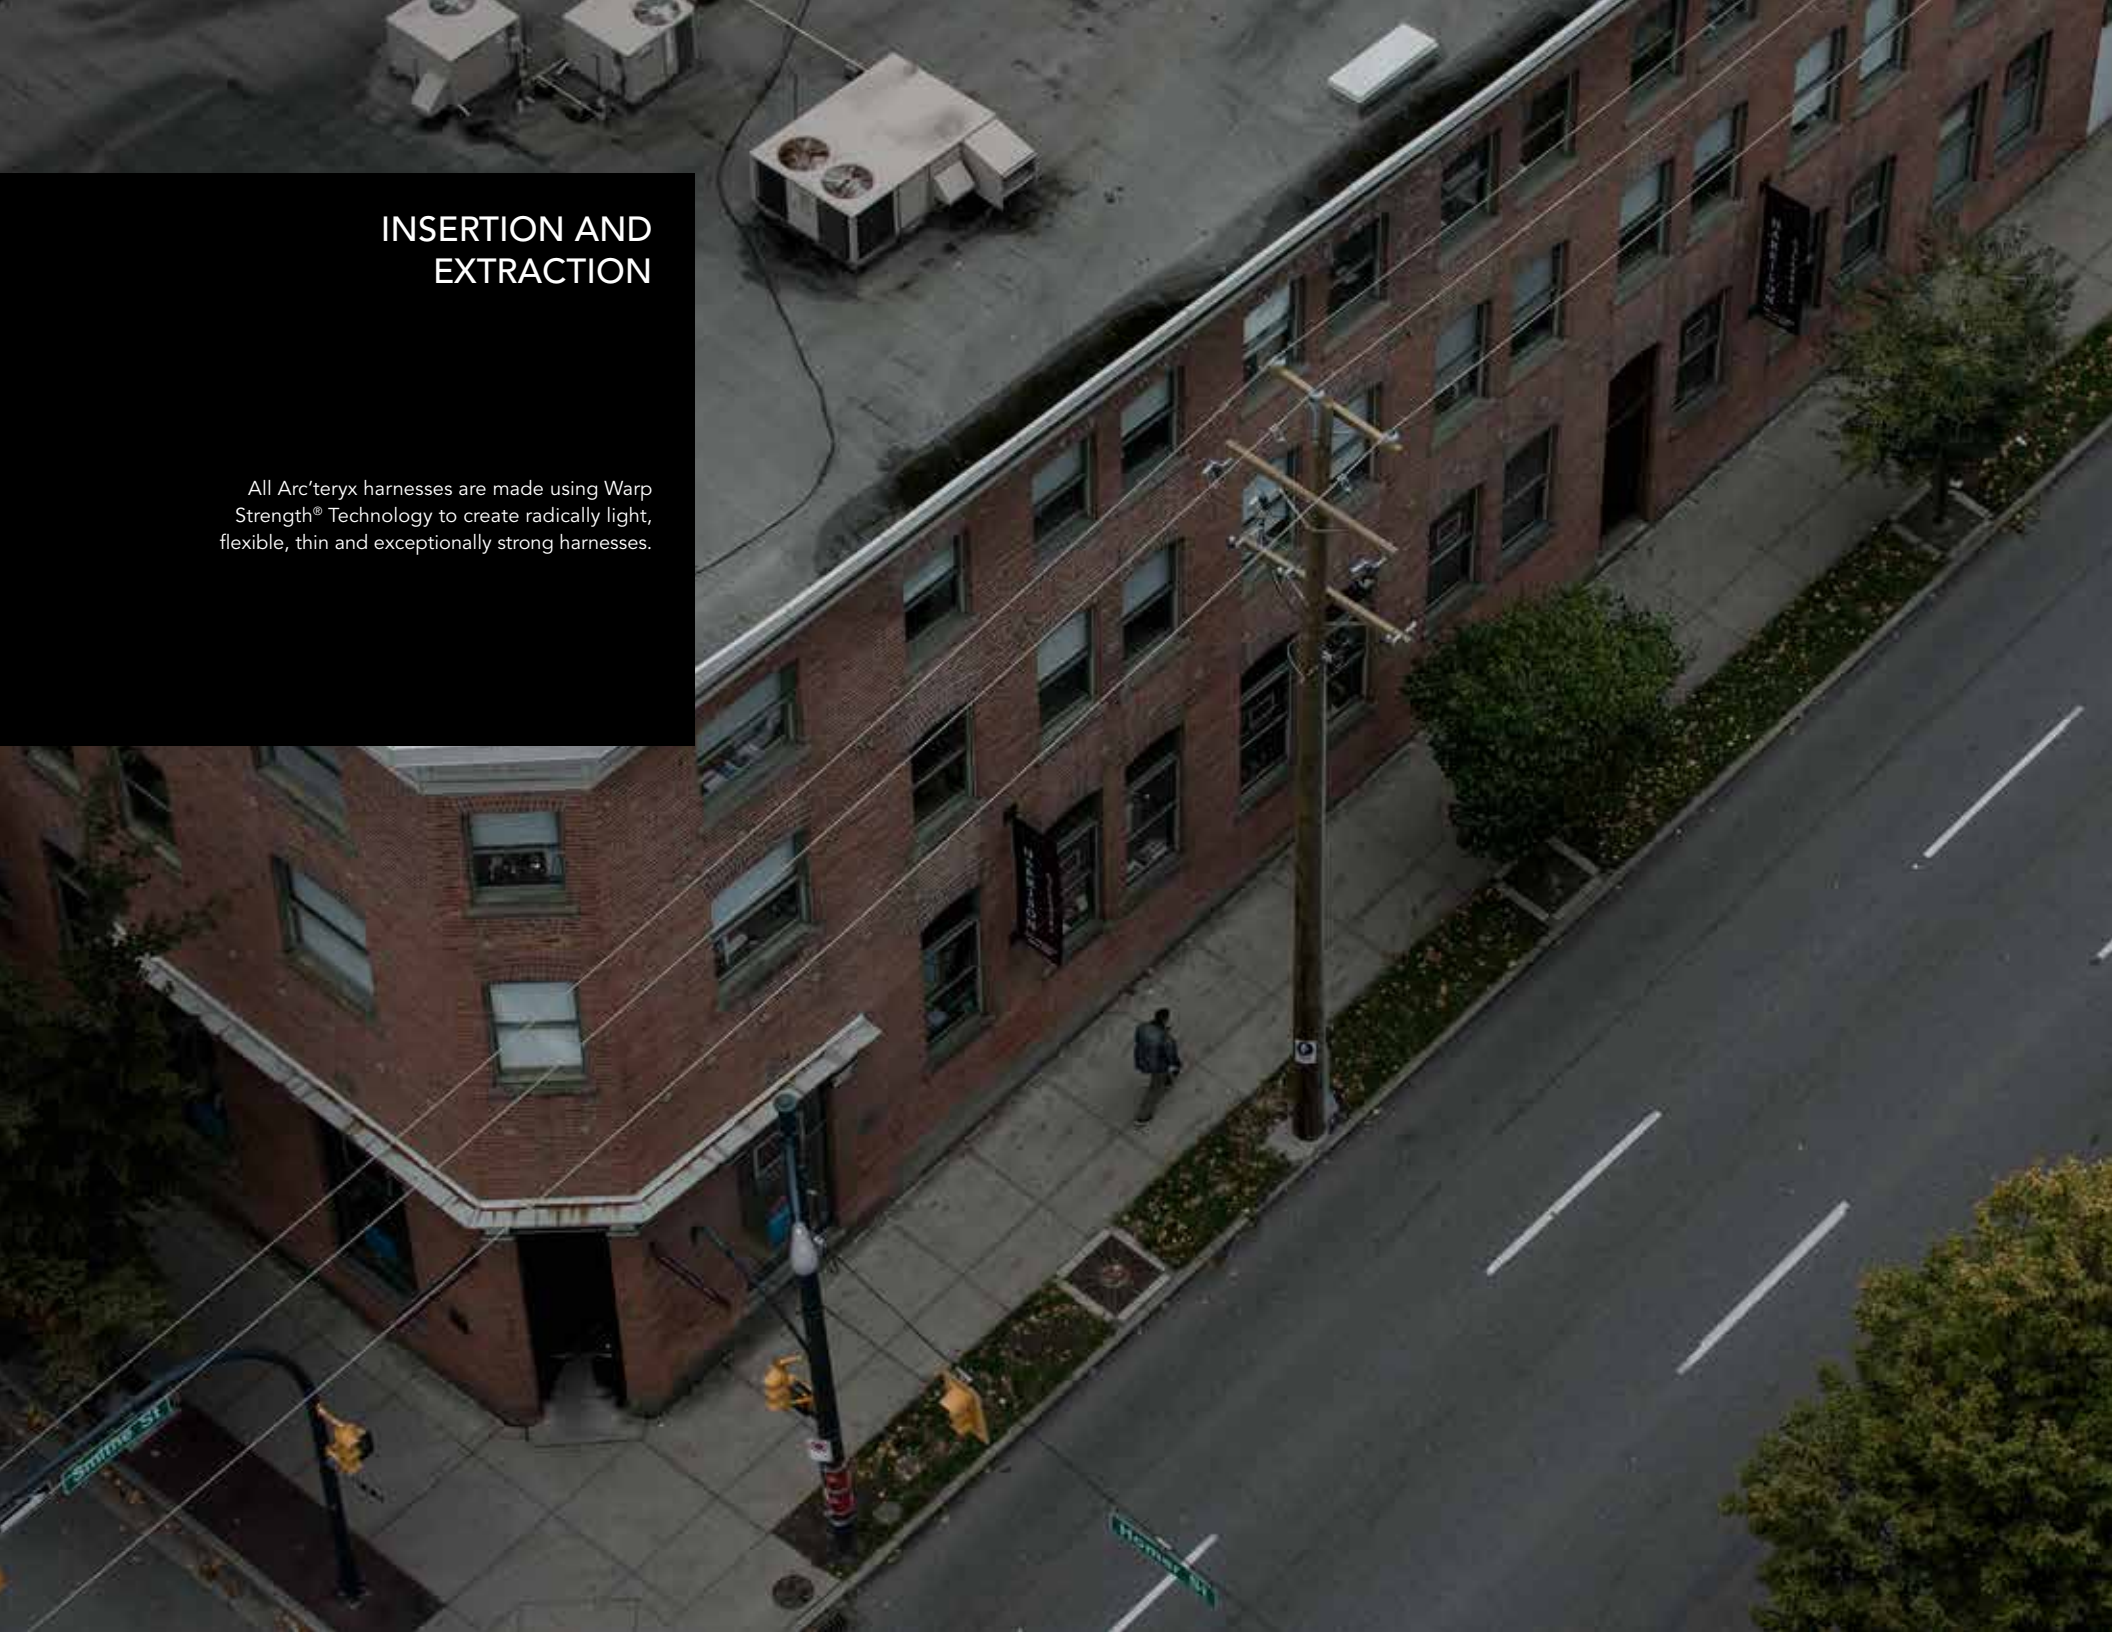

- N630p-HT nylon 6,6 plain weave
- N210p-HT nylon 6,6 plain weave
- N210p-HT nylon 6,6 plain weave

## INSERTION AND EXTRACTION

All Arc'teryx harnesses are made using Warp Strength® Technology to create radically light, flexible, thin and exceptionally strong harnesses.

Crocodile

## X350A HARNESS

Model 7412 | S, M, L, XL | 345g / 12.2oz

### DESIGN

Utilizing Warp Strength® Technology (WST®), this fully adjustable harness is engineered to be lightweight, supple, and low profile. WST® provides universal support across the entire harness structure, delivering superior comfort without bulky padding. Thin and supple enough to be worn comfortably under armour or thigh rig, the X-350a features three self-locking buckles for efficient donning/adjustability, plenty of gear racking options, and wear safety markers that indicate whether tie-in points or belay loop are compromised.

### MATERIALS

- T6 aluminum anodized buckle
- Type 66 nylon webbing
- Spacermesh™
- Schoeller® Dynamic
- Polyurethane gear loops

### FEATURES

- Lightweight
- Low profile
- Compressible and packable
- Comfortable under armour or thigh rig
- Packs into a BDU cargo pocket
- Elasticized leg loops
- Belay loop
- Haul loop
- Thermoformed tie-in point
- Wear safety markers on belay loop and tie-in points
- WST™ load is evenly supported across entire harness structure
- Four injection molded reversible/removable gear loops
- Hook and loop drop seat
- Three ice clipper slots
- Three self-locking buckles
- Non-reflective logos

## H150 RIGGER'S BELT

Model 7188 | XS, S, M, L, XL, XXL | 150g / 5.3oz

### DESIGN

Warp Strength™ Technology in Rigger's Belt uniformly spreads load and distributes weight and pressure evenly across the entire belt. Vertical stiffening supports holsters, sub-loads and pouches. Meets EN certification safety rating EN 358. Can be made into a functional harness that meets EN certification EN 12277 when used in conjunction with the LEAF IE70 Rigger's Loop Rigger's Belt.

### FEATURES

- Warp Strength® Technology construction is lightweight and flexible
- Easily stored or worn, supple
- Meets EN certification safety ratings

### MATERIALS

- T6 aluminum anodized buckle
- Tweave® Durastretch®

## E220 RIGGERS HARNESS

Model 11783 | XS, S, M, L, XL, XXL | 245g / 8.7oz (L)

### DESIGN

Packaged as an emergency set-up, the Rigger's Harness comes with a single mesh sling that folds into two leg loops and attaches to the belt to form an emergency harness. Wider panels on the mesh sling provide comfortable position. Warp Strength™ Technology used in the Rigger's Belt uniformly spreads load and distributes weight and pressure evenly across the entire belt. Vertical stiffening supports holsters, sub-loads and pouches. The E220 quickly converts the Rigger's Belt component into a functional harness. Meets EN certification safety ratings: EN 12277 (Rigger's Harness configuration) and EN 358 (Rigger's Belt configuration).

### FEATURES

- Emergency harness set-up in a single pouch
- Wider panels on sling form comfortable leg loops
- Bound mesh sling edge is tidy and durable
- Easily stored, lightweight, supple

### MATERIALS

- Tweave® Durastretch™
- Vapor Mesh™ 7075 (Riggers Loop)
- T6 aluminum anodized buckle

## IE70 RIGGERS LOOP

Model 14552 | XS, S, M, L, XL, XXL | 80g / 2.8oz (L)

### DESIGN

Intended as an emergency set-up, the Rigger's Loop is a single mesh sling that folds into two leg loops and attaches to the Rigger's Belt to form an emergency harness. Wider panels on the mesh sling provide comfortable position. Meets EN 12277 harness certification safety rating when worn in conjunction with H150 Rigger's Belt.

### FEATURES

- Emergency harness set-up
- Wider panels on sling form comfortable leg loops
- Bound mesh sling edge is tidy and durable
- Easily stored, lightweight, supple

### MATERIALS

- Vapor Mesh™ 7075

# SIZING

1. SLEEVE  
Bend elbow and measure from the centre of your neck (back) to you elbow and down to your wrist.
2. CHEST/BUST  
Measure the fullest part of your bust, keeping the tape level to the floor.
3. WAIST  
Measure your natural waist where your torso is the smallest
4. HIP  
Stand with feet together and measure the fullest part of your hips (approximately 8" below the natural waist)
5. PANT INSEAM  
Garment measurement from crotch to hem.

in	21.7 x 22.4"	22.8 x 23.6"

# MATERIALS

## BROLECO

0.7-0.9mm goat leather impregnated with a TouchTech™ carbon compound that enables the leather to be touch-screen compatible.

## BURLY™ DOUBLE WEAVE

50% nylon, 43% polyester, 7% spandex / 8oz/yd<sup>2</sup>, 275g/m<sup>2</sup>  
A four way stretch fabric that combines superior strength and durability. DWR finish repels moisture.

## CYBERKNIT

100% polyester 5.7oz/yd<sup>2</sup>  
Polyester moisture-wicking Vapour Reflex fabric with an antibacterial treatment to inhibit odour.

## GOSSAMERA™

100% nylon / 1.5oz/yd<sup>2</sup>, 52g/m<sup>2</sup>  
30d mechanical stretch nylon ripstop with an air permeable PU coating and a DWR face finish. A light and breathable stretch fabric with great water repellency and wind resistance.

## LEZANOVA LEATHER

100% Leather / thickness 0.7mm and 0.9mm  
A shrink and wrinkle-resistant treated goat leather that retains its supple feel through multiple wash/dry cycles.

## LUMINARA™

100% nylon / 1.2oz/yd<sup>2</sup>, 44g/m<sup>2</sup>  
20D mechanical stretch nylon ripstop with an air permeable PU coating and a DWR face finish. A featherlight and breathable stretch fabric with great water repellency and wind resistance.

## RENTEX™ STRETCH ML

88% polyester, 12% spandex / 7.9oz/yd<sup>2</sup>, 268g/m<sup>2</sup>  
A dense, warp knit textile with a warm micro-loft interior and resilient stretch. Excellent durability, breathability and wicking performance, as well as snow shedding properties.

## SCHOELLER® KEPROTEC™

75% nylon, 25% kevlar / 5.9oz/yd<sup>2</sup>, 200g/m<sup>2</sup>  
A high tech fabric that's extremely abrasion and cut resistant. Impregnated, water, oil, and dirt resistant.

## TWEAVE® DURASTRETCH®

91% nylon, 9% spandex / 6.5oz/yd<sup>2</sup>, 184g/m<sup>2</sup>  
A mainstay of our LEAF products, TWEAVE® Durastretch® is a simple yet durable plain weave stretch-woven featuring a blend of 91% nylon and 9% spandex with DWR finish. Offering wind protection with breathability, this versatile fabric excels in a variety of conditions and aerobic activities. Added stretch provides superb freedom of movement.

## TWEAVE® DURASTRETCH® LT

84% nylon, 16% lycra spandex / 4oz/yd<sup>2</sup>, 136g/m<sup>2</sup>  
A lighter version of our simple yet durable 4-way stretch woven textile. Abrasion-resistant and breathable, with wind and water resistance, low bulk and excellent stretch recovery make it a versatile fabric with many applications.

## WOOL

### MAPP-MERINO ADVANCED PERFORMANCE PROGRAM

MAPP fabrics use Merino wool's natural properties to create a comfortable personal environment. Merino wool absorbs moisture into the chemical structure of the fibre, moving it away from the skin and promoting the transmission of perspiration. Additionally, Merino produces a small but perceptible amount of heat through 'heat of sorption', a chemical reaction that occurs when the water vapor binds to the chemical structure of the MAPP Merino inner core. Merino wool has naturally occurring fire resistant properties.

## INSULATION

### 2.7 OZ THERMATEK™

100% nylon face, 100% polyester insulation / 2.7oz/yd<sup>2</sup>, 92g/m<sup>2</sup>  
A DWR saturated, hollow-core, continuous filament fibre insulation that is bonded to a DWR treated 30D high tenacity face fabric. Highly water resistant, exceptionally warm and compressible, but won't lose its loft.

### 60G/M2 CORELOFT™ INSULATION

100% polyester / 1.8oz/yd<sup>2</sup>, 60g/m<sup>2</sup>  
A lightweight, breathable and thermally efficient polyester staple fibre insulation that is very compressible and has excellent loft retention. Made with highly crimped multi-denier, siliconized polyester yarn.

### 100G/M2 CORELOFT™ INSULATION

100% polyester / 3.0oz/yd<sup>2</sup>, 100g/m<sup>2</sup>  
A lightweight, breathable and thermally efficient polyester staple fibre insulation that is very compressible and has excellent loft retention. Made with highly crimped multi-denier, siliconized polyester yarn.

## POLARTEC® FABRICS

Our softshells and fleece use Polartec® to enhance performance. These fabrics wick moisture away from the skin for greater comfort and warmth, plus provide superior warmth for weight. The moisture management properties of Polartec® textiles function best with a properly cleaned garment.

## POLARTEC® POWER STRETCH®

53% polyester, 38% nylon / 9% spandex / 6.8oz/yd<sup>2</sup>, 230g/m<sup>2</sup>  
A four way stretch fabric that allows for excellent athletic movement and good breathability to maintain comfort levels.

## POLARTEC® POWER STRETCH® WITH HARDFACE® TECHNOLOGY

88% polyester, 12% spandex / 6.8oz/yd<sup>2</sup>, 230g/m<sup>2</sup>  
A four way stretch fabric that allows for excellent athletic movement and good breathability to maintain comfort levels. Hardface® technology provides long lasting abrasion resistance.

## POLARTEC THERMAL PRO® HIGH LOFT

100% polyester / 9oz/yd<sup>2</sup>, 305g/m<sup>2</sup>  
A very high-loft fleece with exceptional breathability and moisture management properties. Its high warmth-to-weight ratio makes it an ideal insulation layer for active use in cold climates.

## POLARTEC THERMAL PRO® MID LOFT

100% polyester / 9oz/yd<sup>2</sup>, 305g/m<sup>2</sup>  
A mid-loft fleece with exceptional breathability and moisture management properties. Its warmth-to-weight ratio makes it an ideal insulation layer for active use in cold climates.

## POLARTEC® THERMAL PRO® SWEATER KNIT

100% polyester / 10oz/yd<sup>2</sup>, 339g/m<sup>2</sup>  
A fleece fabric that looks like wool, with the softness of fleece. Delivering warmth and comfort in a versatile and easy to care for textile.

## WINDSTOPPER®

MP70p WINDSTOPPER® 2L  
100% polyester / 2.4oz/yd<sup>2</sup>, 83 g/m<sup>2</sup>  
A lightweight, plain weave textile with a smooth polyester outer face and DWR finish. No backer for use over insulation. This fabric is made in the USA and complies with the Berry amendment.

## N72S WINDSTOPPER® 3L

Face: 94% nylon, 6% spandex  
Back: 100% polyester / 7.8oz/yd<sup>2</sup>, 267g/m<sup>2</sup>  
A 3 layer plain weave nylon with stretch and a gridded polyester microfleece backer. DWR finish repels moisture.

## GORE-TEX®

Arc'teryx GORE-TEX® garments provide the highest level of durable waterproof/breathable performance available. Specifically developed face fabrics are exceptionally tough, engineered for durability and longevity. The lightest and most compact garments in the industry, GORE-TEX® backer systems allow moisture vapour to pass quickly through the textile to keep the user dry. GORE-TEX® 3L MULTICAM® is commercially available for the first time.

## MN70P-X GORE-TEX® 3L

A 171 g/m<sup>2</sup> three layer material consisting of a 70 denier nylon plain weave face fabric with a water repellent finish, paired with a GORE-TEX® membrane and a moisture-wicking polyester tricot knit backer. This fabric is made in the USA and complies with the Berry amendment.

## MN40R-X GORE-TEX® 3L MULTICAM®

A 140 g/m<sup>2</sup> three layer material consisting of a 40 denier nylon ripstop face fabric with a water repellent finish, paired with a GORE-TEX® membrane and a moisture-wicking polyester tricot knit backer. This fabric is made in the USA and complies with the Berry amendment.

## MN30P-X GORE-TEX® 3L MULTICAM®

A 108 g/m<sup>2</sup> three layer material consisting of a 30 denier nylon plain weave face fabric with a water repellent finish, paired with a GORE-TEX® membrane and a moisture-wicking polyester tricot knit backer. This fabric is made in the USA and complies with the Berry amendment.

## N40P-X GORE-TEX® 3L

A 112 g/m<sup>2</sup> three layer material consisting of a 40 denier high tenacity nylon plain weave face fabric with a water repellent finish, paired with a GORE-TEX® membrane and a high tenacity nylon ripstop woven backer.

## FLAME RESISTANT

### TENCATE DEFENDER™ M

5.5 oz/yd<sup>2</sup> Mesh – FR Rayon, Para-Aramid, Nylon, Elastane mesh knit blend with an antimicrobial finish.

### TENCATE DEFENDER™ M

10 oz/yd<sup>2</sup> Knit – FR Lenzing, Rayon, Aramid, Nylon blend interlock knit blend.
