

Aimpoint

**RED DOT SIGHTS
FOR MILITARY &
LAW ENFORCEMENT**

PRODUCTS 2015

WHY AN AIMPOINT® RED DOT SIGHT?

To be successful, shooters must be able to aim accurately and quickly under a wide variety of conditions. On a shooting range, there is plenty of time to take aim, but in the real world, everything is in fast motion. Add rough terrain, foul weather, poor light and high levels of stress and even the most experienced marksman will be put to the test.

Military tests have repeatedly proven that the single red dot reticule is the fastest on target in timed and rapid-fire close combat exercises, and also provides the greatest increase in hit probability with moving targets. Other aiming devices require that the shooter's focus leaves the target or create limited situational awareness. Aimpoint dot sights give you increased aiming confidence, allow you to remain on target and shoot with both eyes open, so you are fully aware at all times.

WHEN YOUR LIFE DEPENDS ON YOUR EQUIPMENT

When the time comes to take the shot, there should be no question that you can count on your sight to perform. We believe that a weapon sight should simplify aiming while meeting the highest possible requirements for reliability and ruggedness. We know that conditions in the field place extreme demands on your equipment, so we design and test Aimpoint products to stand up to any condition you are likely to encounter. We also design our products to operate constantly for years on a single battery so your sight will be ready when you are. Whether in the field or on the streets, you can count on Aimpoint® red dot sights.

AIMPOINT - GLOBAL LEADER

Aimpoint is the recognized worldwide leader and originator of red dot sighting technology. After 40 years of working closely with experienced marksmen and military weapon experts around the world, Aimpoint red dot sights remain the number one choice for combining ruggedness, speed and accuracy. Aimpoint sights are in service with most NATO countries, the US Army, US Air Force, the US Navy, the US Marine Corps, and numerous other military forces, police agencies, and special teams worldwide.

Aimpoint red dot sights – soldier tested and combat proven.

ALL CONDITIONS – ANYWHERE

Aimpoint sights work in all light conditions from darkness to bright desert sunlight. They are fully submersible so you never have to worry about rain or immersion. Aimpoint sights are developed and tested to be used in any weather conditions, from the sub-zero temperatures of the Arctic to the heat and humidity of the tropics.

On any type of firearm

Whether you have a rifle, shotgun, handgun or crew-served weapon, Aimpoint has a sight for you.

User friendliness

Aimpoint sights are extremely user friendly. Operated by a mechanical switch, an Aimpoint sight can be easily and quickly changed to the right setting while simultaneously aiming through your sight. Our mechanical switch won't freeze and is easy to use whether you are wearing gloves or not.

Environmental awareness

At Aimpoint, we take great pride in making sure that neither hazardous nor radioactive materials are used in our sights.

STANDARD FEATURES ON ALL AIMPOINT SIGHTS

- Unlimited field of view
- Parallax-free
- Unlimited eye relief
- Unaffected by extreme weather conditions
- Extremely rugged, durable construction
- No hazardous materials
- No laser emission that could be harmful to your eyes
- Increased aiming confidence and hit probability
- Reduced training time and ammunition consumption
- Battery life measured in years

“For me, the Aimpoint Micro T-1 is a belief. A belief that I’m going to achieve first round lethal strikes under any conditions, that I’m going to out shoot, out perform the bad guy no matter the environment or situation.”

Jeff Gonzales, US Navy SEAL and president at TRICON™.

MICRO SERIES SIGHTS

MICRO T-1

Dot size 2 or 4 MOA*
Battery life: 50,000 hours**
Battery type: CR2032
Weight: 3.0 oz
Compatible with CEU & 3XMag (see page 15) and all generation NVDs***

Since its introduction in 2007, the Micro T-1 has become very popular sight worldwide due to its size, light weight and robust construction. It is in use with special forces, law enforcement and military units around the world.

Complete and ready to mount

The standard configuration of the Micro T-1 contains the sight, a Picatinny mount and bikini rubber lens covers. [Complete information for this product](#)

Customize your sight

The Micro sights can be customized according to your preferences and needs. Other mounts and spacers are available to meet the demands of your specific mission and equipment. See page 19-20. The Aimpoint Micro sights can easily be "piggy-backed" on top of larger magnifying scopes.

NEW!

MICRO T-2

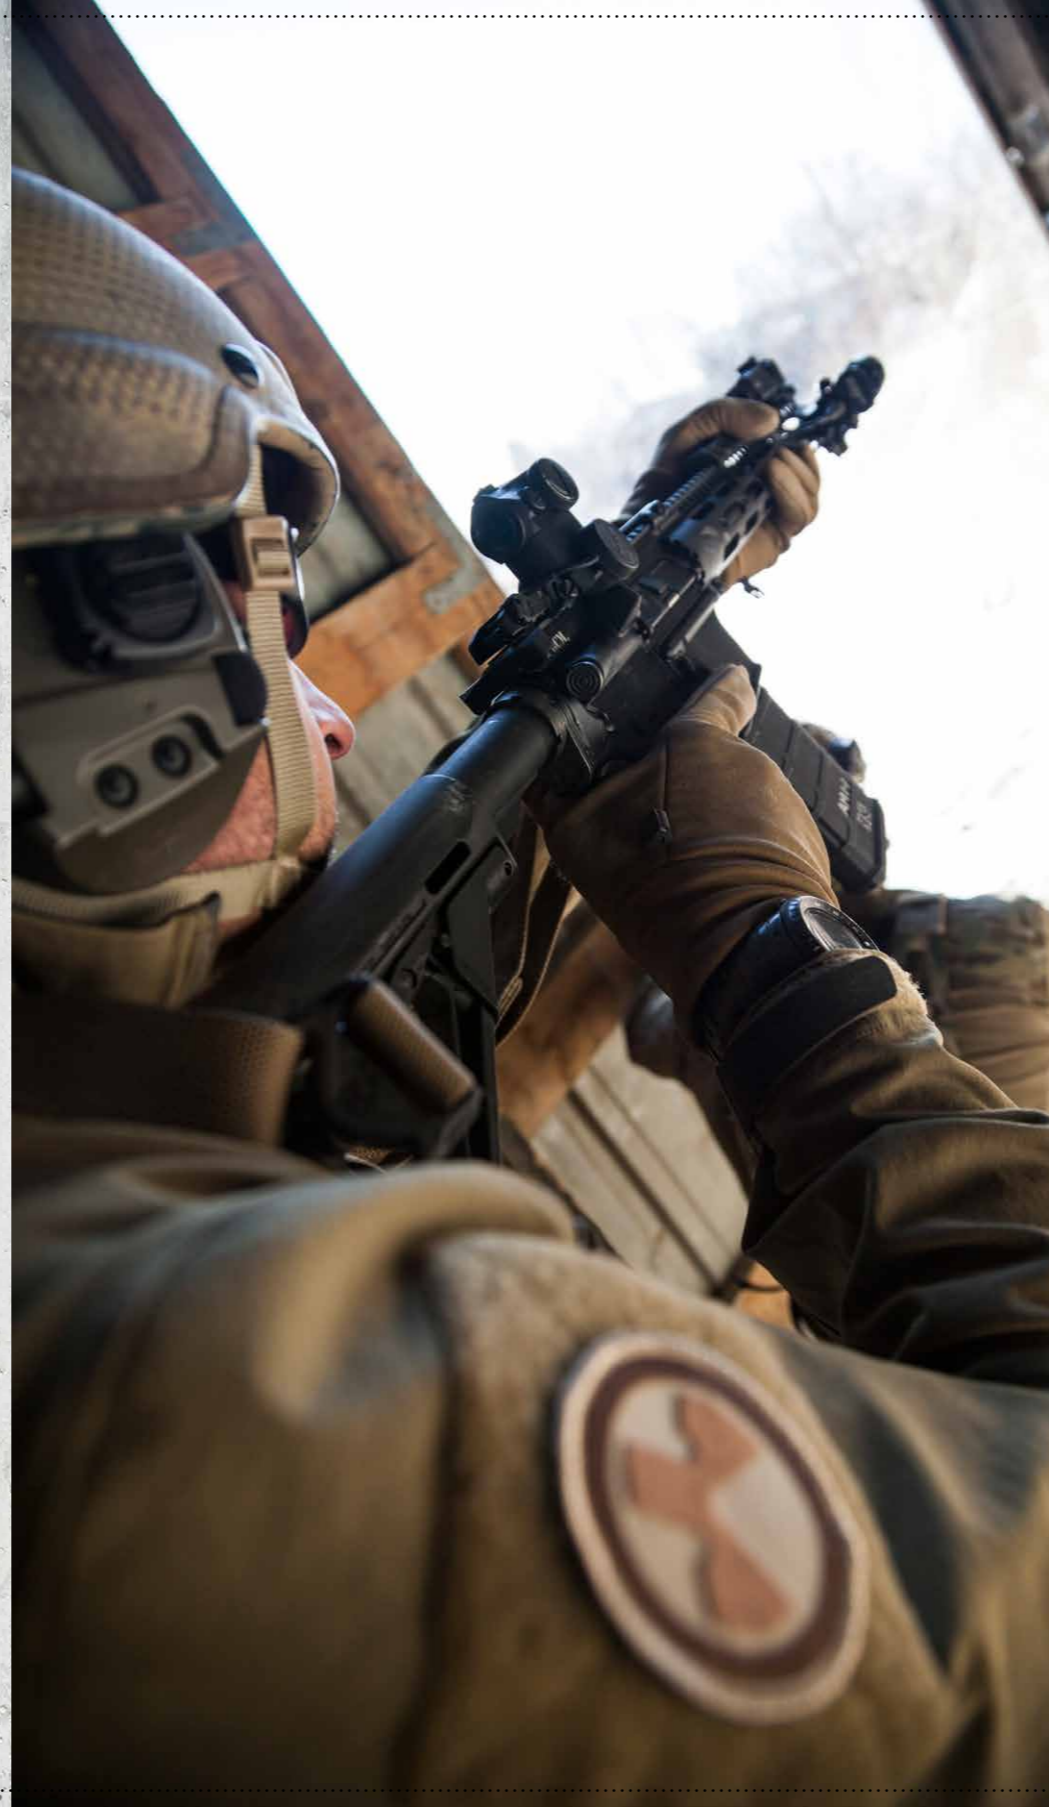

Dot size 2 MOA*
Battery life: 50,000 hours**
Battery type: CR2032
Weight: 3.4 oz
Compatible with CEU & 3XMag (see page 15) and all generation NVDs***

We listened to feedback coming from hard-core customers desiring an even more hard core Micro sight. With a redesigned and reinforced house body, as well as flip-up covers protecting the lenses, the Micro T-2 can withstand all types of environmental conditions. At the same time, we decided to improve upon the optical performance of the sight which results in a new lens and an important breakthrough in reflective lens coatings. This makes the Micro T-2 and the 3XMag magnifier a fantastic optical combination.

Complete and ready to mount

The standard configuration of the Micro T-2 contains the sight, a Picatinny mount, a black front flip cover, a transparent rear flip cover that allows the user to engage a target with both lens covers closed in an emergency situation.

MICRO SERIES SIGHTS

AIMPOINT MICRO H-1

Article No	11910 / 200018
Dot size	2 or 4 MOA*
Battery life**A	50,000 hours
Battery type	CR2032
Weight	3.0 oz
Weight w mount	3.7 oz
Power Switch	Rotary
Mounting	Integrated Picatinny/Weaver

Since its introduction in 2007, the Micro H-1 has become very popular worldwide due to its size, light weight and robust build quality.

[Complete information for this product](#)

Aimpoint Micro sights are both rugged and versatile. With numerous mounting options the Micro sights can be deployed on nearly every weapon in your army.

READY TO GO KITS

The Aimpoint Patrol Rifle Optic and Aimpoint Carbine Optic are perfect for conditions that demand extreme accuracy and speed. Like all Aimpoint sights, the PRO and ACO work under all weather conditions and can take the hard knocks that law enforcement can dish out.

PATROL RIFLE OPTIC (PRO)

Item No	12841
Dot size	2 MOA*
Battery life**A	30,000 hours
Battery type	2L76 or DLI/3N
Weight	7.8 oz**
Weight w mount	11.6 oz
Power Switch	Rotary
Mounting	Integrated Picatinny/Weaver

The PRO sight comes in a ready-to-go kit at a budget friendly price, a concept that appeals strongly to Law Enforcement units.

Complete and ready to mount

The PRO sight contains a QRP2 mount and a standard AR15 spacer which can be removed. It is also equipped with flip covers, a black front flip cover and a transparent rear flip cover that allows the user to engage a target with both lens covers closed in an emergency situation.

Customize your sight

Accessories and mounts are available if you want to upgrade your PRO sight.

[Complete information for this product](#)

AIMPOINT CARBINE OPTIC (ACO)

Item No	200174
Dot size	2 MOA*
Battery life**A	One year
Battery type	DL 1/3N
Weight	6.7 oz
Weight w mount	10.6 oz
Power Switch	Rotary
Mounting	Integrated Picatinny rail mount

The Aimpoint® Carbine Optic is designed specifically for use on AR-15 and M4 carbine style rifles, incorporating proven design features and premium Aimpoint quality at an affordable price point. With a one-year battery life and 2 MOA dot, the ACO is the smart choice for today's modern sporting rifle owner.

Complete and ready to mount

The ACO is ready to mount and shoot directly out of the box. The ACO pairs a 30mm aluminum alloy sight tube with an extremely rugged fixed height mount designed to provide absolute co-witness with AR-15 backup iron sights.

Customize your sight

A full selection of branded accessories such as flip-up covers and ARD filters are available from Aimpoint dealers. Customize your sight to meet your specific needs. [Complete information for this product](#)

COMP4 SERIES SIGHTS

The first Comp sight came out in 1995 and today there are more than 1 million sights from the Comp series in use worldwide. All Comp sights are soldier-tested and combat-proven, in other words they are extremely robust high quality products.

COMP4, COMP4S

Dot size 2 MOA*
Battery life: 80,000 hours**
Battery type: AA Battery
accepts 1.5-5v
Weight sight and
battery only: 9.45 oz
Weight std
configuration: 13.26 oz
Compatible with CEU & 3XMag
(see page 15) and all
generation NVDs***

Std configuration

The Aimpoint CompM4 series of sights are the toughest sights that Aimpoint has ever produced and they are the standard infantry soldier sight in many NATO countries. These optics are extremely rugged and operate continuously for up to 8 years using a single AA battery. The competition is not even close. The Aimpoint CompM4 is the latest version of the U.S. Army's M68CCO (Close-Combat Optic), continuing a legacy that Aimpoint has maintained since 1997.

The CompM4 has a top-mounted battery compartment while the CompM4s has a low battery compartment – this is the only difference between the sights.

Complete and ready to mount

The standard configuration of the CompM4 series of sights contains the sight (CompM4 or CompM4s), a QRP2 mount and a standard AR15 spacer. These sights also come equipped with a killFlash® anti-reflection device and bikini rubber lens covers.

Customize your sight

CompM4 and CompM4s sights can be customized according to your preferences and needs. Both the standard mount and spacer can be changed to meet the demands of your specific mission and equipment.

[Complete information for COMP4](#)

[Complete information for COMP4S](#)

3XMAG

The Aimpoint 3XMAG magnifying module is a high quality optic that can be used with any Aimpoint sight for extended range target identification and engagement. This high quality accessory gives the shooter the best of both worlds: rapid CQB aiming with an Aimpoint sight, and long range target acquisition in combination with the magnifier. The Aimpoint TwistMount allows this transition to occur effortlessly and in just a matter of seconds.

Mechanical Interface

The recommended mount for the 3XMAG is the Aimpoint TwistMount, which allows for quick attachment on any MIL-Std 1913 Picatinny Rail. Check if you need a spacer for co-witnessing with the Aimpoint sight.

The 3XMAG can also be attached to aftermarket “flip to side” mounts.

[Complete information about this product](#)

3XMAG

Optical System

Magnification:	3X
Eye relief:	70 mm
Field of view (FOV):	7 °
Exit pupil diameter:	7 mm

Physical Specifications

Dimensions, L x W x H:	110 mm x 44 mm x 41 mm (4.3" x 1.7" x 1.6")
Weight:	200 g (7.1 oz) including rubber cover

Environmental Specifications

Temperature range:	-45° C to + 70° C, (-50° F - +160° F) in operation and storage
Water resistance:	Submersible to 20 m (67 ft)

CEU

The Aimpoint CEU (Concealed Engagement Unit) gives the operator the ability to observe and/or engage a threat from a concealed or covered position. The Aimpoint CEU easily rotates from side to side, so an operator can safely look around either right or left-hand corners, over barricades and under vehicles. It can also be quickly removed in order to rapidly return to direct engagement.

Mechanical Interface

The Aimpoint CEU rotates a full 260° allowing the operator to safely look around either right or left-hand corners, up staircases or down tunnels from almost any angle. To mount the CEU, use the Aimpoint TwistMount base and choose the CEU ring which allows co-witnessing with the Aimpoint sight.

Complete information about this product

See page 9 for more details about TwistMount and CEU rings.

CEU

Physical Specifications

Dimensions L x W x H: 87 mm (3.4") x 115 mm (4.5") x 42 mm (1.7")
Weight: 135 grams (4.8 oz)
Material housing: High strength, glass reinforced, PP polymer, black, non-glare finish

Environmental Specifications

Temperature range, Storage: +45° C to +71° C (-50° F to +160° F)
Temperature Range, Operating: +5° C to +71° C (+41° F to +160° F)
Immersion: instantaneous
25 m (80 ft.)
Operating Principle: Dual mirror reflective device for true target view.
Optical Magnification: 1x, unlimited eye relief.

MOUNTING SOLUTIONS

SRP-L
Low Wide Ring, 30 mm Black. Fits on Picatinny rail (MIL-STD 1913)
Art. No. 12243 *

QRP3 Mount
Quick Release Picatinny (MIL-STD 1913) Mount 30 mm
Art. No. 12923*

Spacer
Spacer for Ring Base & Top and TwistMount Ring. Raises height of optical axis from 30 to 39 mm
Art. No. 12227 *

CEU Low Rise ring
Ring for CEU. Fits on TwistMount Base. 30 mm height of optical axis
Art. No. 12202

QRP2 Mount
Quick Release Picatinny (MIL-STD 1913) Mount. For CompM4, PRO and Ring Base & Top. Return to zero after dismounting (Spacer is necessary for M4 flat top rifles and carbines)
Art. No. 12195 *

QRW2 Mount
Quick Release Weaver Mount for CompM4, PRO and Ring Base & Top. Return to zero after dismounting (Spacer is necessary for M4 flat top rifles and carbines)
Art. No. 11758 *

LRP Mount
Lever Release Picatinny Mount for CompM4, PRO and Ring Base & Top. Return to zero after dismounting. Screws, Allen key and thread sealer included
Art. No. 12198

CEU High Rise ring
Ring for CEU. Fits on TwistMount Base. 39 mm height of optical axis
Art. No. 12203

TwistMount Ring
Separate ring for TwistMount
Art. No. 12238 *

TwistMount
Complete Quick Release Mount for 3XMag and CEU Fits on Picatinny rail (MIL-STD 1913)
Art. No. 12234 *

TwistMount Base
Separate base for TwistMount Fits on Picatinny rail (MIL-STD 1913)
Art. No. 12236

Standard Spacer
Spacer for for CompM4, PRO in conjunction with Art. No. 12194. Mount raises height of optical axis from 30 to 39 mm
Art. No. 12192 *

Extension Spacer
Spacer for CompM4, PRO in conjunction with Art. No. 12194. Mount raises height of optical axis from 30 to 39 mm and brings sight 40 mm forwards
Art. No. 12193 *

Micro 11 mm Dovetail Mount
Fits most of the 11 mm Dovetail Bases ranging from 10-12,5 mm
Screws and Micro Tool included
Art. No. 12215

Ring Base & Top
Base and Top 30 mm ring. Fits QRP2, LRP and TNP Mounts
Art. No. 12194 *

TNP Mount
Torsion Nut Picatinny (MIL-STD 1913) Mount. For CompM4, PRO and Ring Base & Top
Art. No. 12197 *

Micro LRP Mount
Lever Release Picatinny Mount for Micro sights. Return to zero after dismounting. Screws, Micro tool and thread sealer included
Art. No. 12905 *

Micro Spacer Low
For Micro T-1. Raises height of optical axis to 30 mm. Four screws (torx), Micro Tool and thread sealer included
Art. No. 12357

Micro Spacer High
For Micro T-1. Raises height of optical axis to 39 mm for cowitness with AR-15. Four screws (torx), Micro Tool and thread sealer included
Art. No. 12358

Micro mount for Glock pistols
For Micro T-1. Screws, Micro Tool and Allen key included
Art. No. 12437

Mount Adapter 30 mm
For mounting Micro sights on magnifying scopes with 30 mm tube
Art. No. 200152

Mount Adapter 34 mm
For mounting Micro sights on magnifying scopes with 34 mm tube
Art. No. 200153

ACCESSORIES

Flip-up Front Cover
For CompM4, PRO and ACO
Art. No. 12223

Flip-up Rear Cover
For CompM4, PRO and ACO
Art. No. 12224

Flip-up Front Cover Transparent
For CompM4, PRO and ACO
Art. No. 12241

Flip-up Rear Cover Transparent
For CompM4, PRO and ACO
Art. No. 12240

Lens Cover
For PRO and ACO mounted with Quick Release
Art. No. 12228

Rubber Bikini Lens Cover
For CompM4
Art. No. 12205

ARD KillFlash® filter for CompM4, PRO and ACO
Art. No. 12239

Polarization Filter
Polarization Filter for reduction of sun reflection.
Fits rear of CompM4, PRO and ACO sights
Art. No. 12216

Flip-up Front Cover with Flip-up ARD Transparent (open & closed)
For CompM4, PRO & ACO sights
Art. No. 200122

Rubber Bikini Lens Cover
For Micro H-1
Art. No. 12204

AA Battery Alkaline
For CompM4
Art. No. 12242

Micro Tool
Art. No. 12207

Double Battery Kit
For PRO and ACO
Art. No. 12247

Flip-Up Front Cover with Flip-up ARD (open & closed) For PRO, ACO and CompM4
Art. No. 12462

NEW!
Flip-up Front Cover
For Micro T-2
Art. No. 200191

NEW!
Flip-up Front Cover Transparent
For Micro T-2
Art. No. 200192

DL1/3N, Lithium Battery
For PRO & ACO
Art. No. 10903

CR 2032 Lithium Battery
For Micro sights
Art. No. 12211

Outer Rubber Cover
Color: Dark Earth Brown.
For PRO and ACO. 1.8 oz (50 g)
Art. No. 12226

Outer Rubber Cover
Color: Black. For PRO and ACO.
1.8 oz (50 g)
Art. No. 12225

NEW!

SPEED... MEET ACCURACY

In summary, Aimpoint's breakthrough technology allows you to do what comes naturally – shoot with both eyes open while remaining focused on the target. When you look through an Aimpoint sight, a red dot appears in the lens. When the red dot is on target, so are you, with no centering required. It is this inherent combination of simplicity, speed, and accuracy that makes Aimpoint sights the preferred choice for beginners and experts alike.

Get on target fast, and forget about being challenged by bad light or moving targets.
